CONQUEST OF AIR HAS ONLY BEGUN

That is Sentiment of All Aviators at Banquet in Rheims.

AVIATION TOURNEY BROUGHT TO AN END

Flyers are Invited to Come to America to Win Back International Cup.

Rheims, France, Aug. 30.—"Aviation week" came to its official close today with a gala breakfast given by the committee of organization in honor of the aviators. There were over five hundred guests present and intense enthusiasm in the matter of the wonderful success of the week was manifested on every hand. Bleriot attended and he and Glenn Curtiss, the American; Henry Farman, the Englishman, and Hubert Latham and Louis Paulhan, the French aviators, received ovations, the assemblage arising again and again to cheer them. Cortlandt F. Bishop, president of the American Aero club, was warmly greeted.

Invites Them to America.

In the name of the club and the people of America Mr. Bishop heartily thanked the committee for its cordial reception to and treatment of the Americans, and he invited the aviators of the world to come to America. He protested good naturedly against the insinuation of Mr. Wallace, president of the British Aero club, that America had placed a prohibitory export duty on international cups, pointing out that the first Gordon Bennett balloon cup, captured in 1906 had returned to Europe the following year.

"Naturally we will do our best to keep this cup," Mr. Bishop said, "but if you will come—if Bleriot comes as he has promised—I shall fear for the result."

Only the Beginning.

Marquis De Plona announced the results of the awards and prizes and a series of speeches followed. They were all imbued with prophecy, "that aviation week" marked only the beginning of the marvels that will be witnessed in the conquest of the air.

Among the speakers were the mayor of Rheims, M. Langlis, and M. Loreau, president of the Mixed Aerial commission. The latter referred to the disappointment of France at the failure to retain the international cup, the speed trophy captured by Curtiss, and he provoked a hearty round of applause when he added: "But I appropriate for myself and all Frenchmen the remark of Bleriot when he learned that France had been defeated. That was 'I will go to America and win it back.'"

ZEPPELIN HAVING A ROUGH TIME IN THE AIR

Airship Cripples Itself Returning from Berlin and Comes Down.

Buelzig, Germany, Aug. 30.—The Zeppelin airship which started at 11:24 o'clock last night from the Tempelhof parade grounds on its return voyage to Friedrichshafen, met with an accident early today and landed here at 7 o'clock.

The two forward propellers were broken and a fragment of one of them pierced the envelope, permitting the gas to escape. The airship, however, was kept up by throwing overboard ballast until a favorable landing place was reached. The ship came down gently and it now rests on a meadow within fifty yards of the railroad tracks here. It will take at least two days to complete repairs. Telegrams have been sent to Friedrichshafen for workmen, materials and gas.

MOTORS WERE NOT TESTED.

Berlin, Aug. 30.—The accident to the Zeppelin II. is attributed by technical observers to the fact that her motors had not been properly tried out under service conditions. It appears that the airship as at present fitted out, was tried in the air for only two and one-half hours previous to undertaking the trip to Berlin. Other than this the motors have had only the ordinary shop tests.

It had been the intention to show Zeppelin II. to Emperor William and to Francis Joseph, the emperor of Austria within the same week. Emperor Francis Joseph has arranged to visit the newly constructed air ship works on the lake of Constance, and Zeppelin III. was hurrying back to the south in order to reach the lake tomorrow. When the news of the break down was transmitted to Emperor William he ordered that Zeppelin II., the airship that already has been turned over to the army, be sent from the Rhine depot to the lake of Constance for the inspection of Emperor Francis Joseph. It had been arranged that the airship should accompany Francis Joseph's yacht on the return to Brentz.

ZEPPELIN REACHES BERLIN.

Berlin, Aug. 30.—The airship Zeppelin III. with Count Zeppelin at the helm, arrived safely at Berlin shortly

DELUGE CEASES; WATERS RECEDE

Danger is Past at Monterey But 1,400 Dead is the Terrible Toll.

PROPERTY DAMAGE IS MANY MILLIONS

Situation is Flooded Town Desperate for Want of Food and Shelter.

City of Mexico, Aug 30.—A conservative estimate of the damage wrought at Monterey by the flood places the dead at 1400 and the property loss at $12,000,000. The river has now gone down and the danger is over.

Up to the present time 650 bodies have been recovered. One entire quarter of the city of Monterey was destroyed and fifteen thousand persons today are homeless. The water mains are useless and the city is consequently without drinking water; neither is there light nor street car service for the power plant has been seriously damaged.

No Tran Service for a Week.

It will be impossible to resume the train service for a week and as a result the city is threatened with a food famine.

The slaughter houses have been destroyed. Ten thousand persons are being fed on bread, coffee and soup by the municipal authorities and the American consulate is giving food to all who apply. Thousands of persons have taken refuge in the cathedral and the churches.

Many abode structures, are falling and there has been some additional loss of life from this cause. The railroad situation is deplorable. The branch of the International between Monterey and Tampico suffered a score of washouts. The bridge at San Juan has gone and 75 miles of the track of the Matamoras branch have been washed out. There are a dozen washouts between Matamoras and Cuevas, and the big iron bridge over the Rinconaga between Saltillo and Monterey is gone. The total of the loss to the railroads probably will exceed $500,000.

Devastation Widespread.

Eighteen blocks of residences and business houses were entirely washed away. The more wealthy people of Monterey together with the American residents are collecting and disbursing funds for food. The greatest loss of life is said to have been caused by the giving away of the reservoir dam. Monterey is situated in a cuplike valley and is surrounded on three sides by steep mountains. The water here rushed into this valley down the bed of the Santa Catarina river. This stream is ordinarily 150 yards wide, but with the advent of the flood its banks were fully three-quarters of a mile apart. It is estimated that eighteen inches of rain fell.

The federal authorities are busy with the organization of relief measures. enefit theatrical performances, bull fights and fairs are being planned. Subscription lists are being opened all over Mexico City and the other cities of the republic are responding to Monterey's urgent call for assistance.

Rain Ceases Falling.

Rain ceased falling at noon Sunday for the first time since last Thursday afternoon and some idea of the horrors of the flood of Friday night and Saturday could be obtained. The river has fallen considerably and while still high the danger is now over.

Seventeen and one-half inches of rainfall is the official record during Friday, Saturday and Sunday. This rain was a steady downpour and at no time approached the status of a cloudburst. The river was higher than it has ever been in the history of Monterey, and one time the plaza Zaragoza, the highest part of the city, was flooded to a depth of about one foot. This was early Saturday morning and only lasted until the approach on the south side of the San Luisito bridge was washed out.

Hundreds Crushed Under Walls.

The greatest loss of life occurred Saturday morning between the hours of 9 and 11 o'clock, when the large buildings on the south side of the river commenced to crumble and fall. Many of the houses had from 100 to 200 people on their roofs, and all disappeared in the flood.

In one school building on the south side of the river ninety women and children were drowned when the walls of the building collapsed. This was one of the most pathetic incidents of the flood. The women and children had run to the school for safety, but the water having reached there, drove them from room to room until they were all clustered in one room. Two priests were with them in the room, and while in the act of blessing them the walls fell and the whole ninety were swallowed up in the flood.

Thousands of people were standing on the north bank of the river, unable to render aid to the unfortunates on the buildings on the south side, for nothing could have lived in the current of the Santa Caterina, which was half a mile wide and flowing at the rate of at least twenty miles an hour.

Watchers saw buildings loaded with people collapse and the people disappear in the water. It was a sight never to be forgotten, and there is hardly an establishment in the city that has not some story of loss of employes.

AN APPEAL FOR AID.

Washington, Aug. 30.—Consul General Hanna at Monterey, Mexico, on behalf of the officers of the American colony there has made an appeal to the American people to assist the destitute sufferers at Monterey.

LITTLE YACHTS GET UNDER WAY FOR CUP RACE

Sonder Type of Craft Get Away at Marblehead for Contest.

Marblehead, Mass., Aug. 30.—Six little yachts slipped out of the old fisherman's harbor at Marblehead today for the initial race of the third international series for the Sonder or special type of boat. The German yachts were the Hevella, Margarethe and Zehund II, while the American yachts were the Ellen, Joyette and Wolf.

Eleven days hence President Taft following the footsteps of President Roosevelt and Emperor William, will personally present to the winner of the week's racing the big silver bowl which bears his name. As an additional incentive to the contest this year there is a second prize, the Governor Draper cup, which goes to the captain of the second boat. The Americans won off Marblehead in 1906 and the Germans at Kiel in 1907.

All six boats were thoroughly groomed for the week's sports, and as the rules forbid hauling out during the series it was not until three hours before the race today that the yachts were gently lowered into the water in the shipyards.

As the little boats scurried around Marblehead light before a cool northwester that had a bit of autumn in it, there followed them a great flotilla of steam and sailing yachts, power boats, representatives of the American navy and four revenue cutters. The last named stationed themselves near the start and at once lowered gigs and launches for police duty in clearing the course for so delicately balanced are the Sonder yachts and so few do they lie in the water that any variation in the wind affects them at once. There was comparatively little roll to the sea and in under the land, where the course was laid, the breeze had not much chance to kick up a tumble. Conditions, however, before the start seemed to favor the heavy weather boats, the Zeund II of the Germans and Wolf of the American team.

MINERS LOSE GROUND.

Operations of 1908 Show Decrease in Production and Price.

Washington, Aug. 30.—Kentucky coal mining operations for 1908 were attended by both a decrease in production and a decline in the price per ton, according to the United States geological survey. The state's total production of coal was 10,246,553 short tons, with a spot value of $10,317,162. There was a falling off of 506,571 short tons, a decrease in value of $1,087,876, and a decline in average price of $1.06 to $1.01.

When mining first began it is estimated that the original coal supply in the state was more than 104,000,000,000 short tons. From this original supply, it is said only two-tenths of one per cent. has been mined.

PREPARING TO CLOSE.

Cards Announce Half Holiday for Fort Wayne Day Wednesday.

Cards are being placed in the windows of stores identified with the Retail Merchants' association announcing a closing for half a day on Wednesday—Fort Wayne day at Robison park. President Marx Dukes says the merchants are anxious to have the entire city join with them in making Fort Wayne day a booming big one. The special park program is an unusually attractive one.

STEADY JOB FOR THAW.

Matteawan, N. Y., Aug. 30.—In their search for regular occupation for Harry K. Thaw, recently re-committed to the state hospital for the criminal insane here, the authorities of the institution have appointed him to the post of librarian.

QUAKE CONVULSES PANAMA ISTHMUS

From Colon to Panama the Course of the Canal is Shaken.

NO DAMAGE TO BIG DITCH IS REPORTED

At Panama Houses Were Set Rocking and Injury Was Received.

Panama, Aug. 30.—A strong earthquake was felt here shortly after 8 o'clock this morning. The people were greatly alarmed but no serious damage has been reported and no one was injured.

The administration buildings of both the government and the canal commission here and at Ancon were so severely shaken that the clerks left their desks hurriedly for the street. They soon returned however when it was seen that no damage had been done and that the first shock was not followed by a second. The quake was felt also at Aguadulce in Cocle province, and Pacora in the province of Panama, points more than one hundred miles apart.

There was no indication that the Panama canal was damaged by the quake. Special inquiries were made in this direction, and a report from the canal commission is expected.

FELT AT COLON.

Colon, Panama, Aug. 30.—An earthquake schock was felt at both ends of Panama shortly before 8 o'clock this morning. In Colon the shock was slight and no damage was done. No report of damage to the canal work has been received.

PUPILS ON A STRIKE.

McKees Rocks Strikers' Children Stay Away From School.

Pittsburg, Pa., Aug. 30.—When the public school at Pittston located in the pressed steel car company strike district resumed today after the summer vacation, only three small children out of an enrollment of 200 were present.

On a telegraph pole opposite the front door of the building was posted a sign written in childish hand as follows: "We are all on a strike."

Many of the strikers who have children, were recently evicted from the company's houses and are now residing in another district. Those who remain are making no effort to send their children to school.

Tomorrow is the last day allowed to the tenants of company houses, according to the eviction notice. A large number of families are moving today.

Conditions were quiet in the strike district.

COMPLETING NEW CIRCUITS.

Central Union Telephone Company Improving Its System.

Manager E. L. Taylor has announced that within a few days the Central Union Telephone company will have completed the installation of five new copper circuits into Fort Wayne, giving improved service to Ohio points and to Chicago. The new wires are into the Fort Wayne exchange and only await connection with the switchboard.

THE WEATHER.

Chicago, Aug. 30.—Illinois—Generally fair tonight and Tuesday.

Indiana—Fair tonight and Tuesday; rising temperature Tuesday and in central portion tonight.

Lower Michigan—Partly cloudy tonight and Tuesday; rising temperature.

Ohio—Fair tonight and Tuesday.

BABES TUMBLE INTO HOT JELLY AND ARE BURNED

Infant of Six Months May Die—Other, Aged Four, Badly Scalded.

One tiny tot may lose its life and her sister, a few years older, is severely burned, the result of an awful accident about 11 o'clock this morning when the children stumbled into a kettle of boiling hot crab apple jelly.

Both the victims are children of Mr. and Mrs. Bert Hoppel, of 913 Liberty street, the father being a shipping clerk at the Perfection Biscuit company's plant. Gladys the babe, is not expected to recover as she is horribly burned about the lower part of the trunk and the legs. Helen, the elder sister, was burned very severely about the legs, her burns resulting from the splashing. She will recover. Both are at St. Joseph's hospital.

Stumble Across Threshold.

The kettle was filled to the brim, containing about eight quarts, when the mother set it off the stove that she might change the position of a hot plate. But a few minutes previously, Helen had gone onto the back porch where the babe was lying in a baby carriage and innocently folding it into its own arms, started into the house with the child. The mother, seeing the danger, made a rush to intercept the two but not before the elder girl had stumbled across th threshold, falling forwards into the boiling hot contents of the kettle. The baby's face was turned toward its sister, consequently that portion of the body escaped from any burnings The baby in its fall splashed the jelly all about the kettle, much of the hot stuff coming into contact with Helen's legs. The mother hurriedly grasped both of them, carrying th m into the back yard.

The screams of the two tots upon being burned were heard by neighbors, among whom was Mrs. McLeish, living next door. Mrs. Hoppel was given every aid possible and Dr. J. M. Bowers was summoned, Dr. M. F. Porter later joining him. The children were stripped of their clothes and washed and bandaged in an effort to soothe their pain. About 12:30 o'clock, an ambulance was summoned and the children taken to the hospital.

The husband and father, oftentimes known as "Bill" Hoppel, was called home from his work by the neighbors. The two children are the only ones in the family.

CRIMP IN FIGHT PROJECT.

Jerome Says Ketchel-Langford Mill Cannot Be Held in New York.

New York, Aug. 30.—Following a conference in which Commissioner Baker, District Attorney Jerome and William Gibson, of Fairmont Athletic club, participated today, it appeared that the Fairmont club's $20,000 offer for the Ketchel-Langford fight in this city will be withdrawn. Mr. Gibson was told by the district attorney that such a fight would not be tolerated here. Mr. Jerome added that even bidding for the bout was a violation of the law. Mr. Gibson said that under the circumstances his club would have to retire from the contest for the match, but his attorneys advised making a test case.

SOME FISH STORY THIS.

Plymouth, Aug. 30.—The steamer Kaiser Wilhelm der Grosse arrived here today from New York. While off the banks of New Foundland she collided with a seventy-foot whale that evidently was asleep on the surface water. The whale became impaled on the liners bows, and all its efforts to free itself were futile. Finally the steamer had to go full speed astern in order to get clear of the dying leviathan.

HARRIMAN ISSUES FRANK STATEMENT

Says He is Weak and Needs Rest Foreign Doctors Counseled.

EXAMINATION BY SURGEONS URGED

But Only as Precaution—He Asks Press to Cease Surveillance.

New York, Aug. 30.—Mr. Harriman has dictated the following statement for the press:

"I am pursuing the course laid out before I went abroad and advised by the physicians. I intended taking a rest as soon as my responsibilities would permit. My treatment abroad reduced my weight and vitality and weakened my digestion.

"The most expert physicians in Munich advised me to have an examination by surgeons as a matter of precaution. This has been done very carefully by Drs. Brewer and Crile, in conjunction with Dr. Walter James and Dr. Lyle, and the whole result is that they find nothing serious and renew the advice previously obtained that I should have rest and not see many people at any one time, and this I am trying to do.

"This covers the whole case, and later on if the representatives of the press desire it and there is any purpose to be accomplished, I will see them up here, but now I ask that the surveillance of the operations of my home be withdrawn, not so much on account of my family or myself, but that the coming and going of any friends may not be interfered with.

"I appreciate the interest shown in my welfare by the press and by friends in all sections and perhaps by some others. If there was or should be anything serious I will let the press know, and as I have never deceived them, I ask that the press now withdraw its representatives and rely upon me."

Yesterday the family broke silence and through their chaplain, the Rev. J. Holmes McGuiness, sent a message to the press that effectually halted wild conjectures. At the same time there is little doubt that the financier's condition is not entirely satisfactory. And of all the stories spread about during the past three days one persists.

Consultation Was Held.

This is that last Friday a noted specialist, perhaps several specialists, held a consultation at Arden house. What their verdict was can only be conjectured, but if they came to consider an immediate operation they decided against it.

Mr. Harriman seems to be in no immediate danger, but his life must be regulated with extreme care.

Employes of the estate who came down to Turner today said that Mr. Harriman appeared on the porch later in the morning in an adjustable reclining chair, and as has been the custom, spent some time in the sun. It was said he had a restful night and was in good spirits. The weather was perfect today with the sun shining brightly, but not too warm. Work on Tower Hill went on without interruption.

NEW NAVAL REGULATION.

Washington, Aug. 30.—An important amendment has been made to the navy regulations which places the engineer office attached to a ship of war in line to succeed the executive officer. This is the result of the amalgamation progress by which the engineer officer abroad ship is a line officer by training and experience fiteed to act as executive officer when occasion requires.

KALAMAZOO BIDDING FOR IT.

Judge Vesey in Decatur Conferring With Coppeck Motor Company.

Judge J. W. Vesey is in Decatur, Ind., today conferring with the directors of the Coppeck Motor Car company in regard to placing the factory in Fort Wayne. Kalamazoo has made a bid for the plant and it will take some immediate action to insure the factory for this city. The local promoters are hopeful of being able to raise the amount of money required.

FAILS TO FIND HUSBAND.

Mrs. Charles Allier, of Detroit, has returned home after having been in Fort Wayne for several days trying to get trace of her husband, who has been in the roofing business here, but disappeared some days before her arrival. Mrs. Allier learned that her husband had been devoted in his attentions to a woman on West Main street, representing himself as an unmarried man. She has been able to get no trace of his movements since he hurriedly quit Fort Wayne.

DEPUTY DIES OF WOUNDS.

Norfolk, Va., Aug. 30.—Deputy Sheriff John W. Sikes, of Norfolk county, died last night as the result of wounds inflicted by one of three highwaymen who had been placed under arrest by him and two special officers in South Norfolk Saturday night. The negroes escaped and fled. Sikes was shot through the neck and leg.

MAURETANIA'S NEW MARK.

Queenstown, Aug. 30.—The steamer Mauretania, the record holder for the trans-Atlantic, arrived here today from New York over the short course and made the passage in four days, fourteen hours and twenty-seven minutes. This beats her previous best passage by two hours and fifty-three minutes.

FARMER KILLS GIRLS THEN SELF.

Redwood Falls, Minn., Aug. 30.—Will Tibbetts, a wealthy farmer 70 years old, living near Delhi, early today killed Cecil Norton, the 15-year-old daughter of his housekeeper; his daughter, Dorothy Tibbetts, 12 years old, set fire to his residence to conceal the double murder and then hung himself.

BATTERY B BOYS HOME FROM SPARTA

Artillerymen Arrive After Ten Days in Camp for Instruction.

BIG DINNER WAS AWAITING THEM

Fort Wayne Militiamen Made Fine Record in Regular Army Work.

Home from a strenuous ten days in the regular army camp of instruction, Battery B arrived in Fort Wayne at 12:45 o'clock this afternoon, tired but exultant over their experience and their record. The home-coming was additionally eventful from the fact that the militiamen found a big dinner, spread in the armory on East Superior street, awaiting them when they reached the city. It was the kindly expression of interest of the ladies—the mothers, wives, sweethearts and friends of the battery boys. The militiamen charged the tables in enthusiastic fashion that put the good things on the menu to utter rout in short order.

"It was the best instruction camp we ever had," declared Captain Harry Clark when The Sentinel asked concerning the experiences of Battery B at Sparta. "We were given training under actual service conditions and gave a creditable account of ourselves. Captain Farr, of Battery E, United States army, paid us the compliment of stating that Battery B is one of the very best militia batteries that had been in camp at Sparta this season."

Dinner Was a Surprise.

The battery tumbled off a Pennsylvania train shortly before 1 o'clock today, having left Sparta at 5 o'clock Sunday evening, and having ridden through without delay. The organization marched down Calhoun street to Berry and thence eastward and northward to the Superior street armory. Here the ladies had tastefully decorated the building in patriotic colors and arranged the spread in honor of the home-coming of the militiamen. Only Captain Clark and one or two of his officers had been given any hint of the preparations, and to nearly all the militiamen the complimentary dinner was a big surprise of most agreeable character. The ladies who manged it ask that an expression of their appreciation be given for the donations which made the happy event possible.

Battery B was the largest military organization which has been in the Sparta camp this season, with its 94 enlisted men and 4 officers. Ten men of battery C, at Rockville, were attached to the Fort Wayne battery after it reached Sparta. The drills were strenuous and practical, and the young militiamen were given training under conditions as nearly like actual warfare as possible. General Frederick Dent Grant was a visitor to the camp during the stay of the Fort Wayne men.

The record of battery B on the ranges was wholly creditable. Perhaps the most notable work was at 1,100 yards when a small house used as a target was utterly demolished with shells. Hits were made at all the targets, and inasmuch as this is the first actual work with the battery's new equipment of guns, the showing is one of which the young soldiers are justly proud.

Little or no Sickness.

The health of the men was exceptionally good during the entire stay, only one or two of the artillerymen suffering from trivial indisposition during the entire ten days in camp.

As a trophy of the trip the battery boys brought with them from Sparta a cat which they have dubbed "Sparta" and which has developed a marked regard for the Fort Wayne lads. The feline has already been decorated with the battery colors and will be maintained as the property of the organization.

M'HARG READY WITH VACANCY WHEN IT IS WANTED

Assistant Secretary of Commerce Explains Attitude.

Washington, Aug. 30.—That Ormsby McHarg, assistant secretary of commerce and labor, believes that his recent interview regarding conservation policies has not embarrassed President Taft or his administration, that he is ready to step from office immediately if such should be the construction placed upon his attitude regarding the methods of preserving the forests and that the views which he has expressed are his own without any reference to his official position, seems to be a summary of the situation which has created so much discussion since Mr. McHarg's original interview. Mr. McHarg said today that Secretary Nagel knew him well enough to place the proper construction on the statements which he had expressed and to know that he would do nothing to embarrass either the president or his immediate superior. McHarg seems to believe his published interview does not in any way alter the relations which have existed since he accepted the assistant secretaryship of the department of commerce and labor.

WAS STRICKEN DOWN AS HE REACHED PEORIA

Charles Rossington Dies Suddenly from Paralysis —Other Deaths.

Charles H. Rossington, well known from his long connection with various Fort Wayne hotels, died very suddenly Sunday morning at Peoria, Ill., within a short time after he had reached that city to take a position with the National hotel. Death was due to paralysis. Until Friday last Mr. Rossington was a clerk at the Baltes hotel, resigning this place to go to Peoria, and he left Fort Wayne Saturday for that city. News of his sudden demise came Sunday afternoon in a telegram from Col. Dick Townsend, formerly of this city and now proprietor of the National in Peoria.

Mr. Rossington was born in Fort Wayne, January 9, 1866, and was a son of Richard Rossington, who was a prominent early hotel man of Fort Wayne. The son is survived by the widow and a son 4 years of age, residing on Cass street.

Funeral services Wednesday afternoon at 2 o'clock from the residence, corner Cass and Third streets.

MEYER.

Frank J. Meyer, 61 years of age, long employed as a gunsmith in the store of John Trautman, died at 1 o'clock Sunday morning at Hope hospital, following an operation for peritonitis. He had been critically ill since Wednesday. The family home is at 1229 Eliza street.

Mr. Meyer was born in Germany, March 2, 1848, and came to Fort Wayne twenty-seven years ago. Surviving members of the immediate family include the widow and three children—Mrs. Edward Harsch, of Norfolk, Ohio, and William and Frank Meyer, of this city. There is also one grandchild, as well as a brother and a sister.

Funeral services Wednesday afternoon at 1:30 from the residence and at 2 o'clock from Concordia Lutheran church.

GORDON.

Ethel Jane Gordon, the little daughter of Mr. and Mrs. Samuel Gordon, 1107 Lavina street, died at 8:30 o'clock Sunday morning from dysentery at the age of two years and three months. The child was one of twins.

Funeral services were held from the residence Monday afternoon.

Kaiser.

Sophia Kaiser, the little daughter of Mr. and Mrs. George Kaiser, 1317 Hugh street, died at 7:10 o'clock this morning from scarlet fever at the age of 2 years, 10 months and 7 days.

Funeral services were held privately this afternoon; interment at Concordia.

FUNERAL NOTICES.

Sutter.—Funeral services of Oscar Sutter will be held Tuesday afternoon at 1:30 from the residence, 615 Fifth street, and at 2 o'clock from St. John's Lutheran church. The children of St. John's school are requested to assemble at the church at 1 o'clock to assist in the musical service.

CALEDONIAN DAY A SUCCESS.

Scotch People Turn Out and Have a Big Celebration.

The Caledonian society had a great day at Robison park Saturday and about 500 members of the organization participated in the events that went to make a most entertaining program. There was a big dinner in the grove and the only disappointment was that the dance arranged for the evening was declared off. Interest centered in the sports and the results follow:

100-yard dash—Gus Willson, first, Paul Wagner, second, George Casterline, third. Time, :10 4-5.

100-yard dash for boys—Alfred Zurcher, first, Edward O'Connor, second, William Gillie, third.

SUICIDE SEQUEL TO MURDER.

Bristol, Tenn., Aug. 30.—As a sequel to the murder of A. J. Slagle, a wealthy Jonesboro lumber man whose body was found in the river at Newport, Tenn., Sunday, John Spencer, a relative of Slagle, committed suicide today by jumping headforemost into a rain barrel. He was suspected of the murder of Slagle.

Miss Louise Balzer, employed at the Wayne Knitting mills, is confined to her home by a severely injured foot.

The Anthony Wayne chapter of the American Women's league will meet Wednesday evening at the home of Mrs. Julia Le Gras, 720 Calhoun street, on the third floor of the Seidel block.

HOLDS THE CLIMBING RECORD.

DUKE OF THE ABRUZZI.

To the duke of the Abruzzi, of Italy, belongs the record of the highest mountain climbing ever done by man. This record was made recently when the duke attained the height of 24,600 feet on Mount Godwin-Austin, the second highest mountain in the world, Mount Everest being the highest. Mount Godwin-Austin is 28,500 feet high, and the duke of the Abruzzi was within 3,650 feet of the summit.

The duke of the Abruzzi is the son of the late duke of Aosta and cousin to the king of Italy. He inherited a large fortune from his mother, who was a great heriss. His father was for a time King Amadeo I., of Spain. The duke having attained the rank of captain in the Italian navy early turned his attention to exploration, and in 1897, after several Alpine successes, he went to Alaska, where he conquered the virgin peak of Mount Elias, more than eighteen thousand feet high. From mountain climbing he turned to arctic exploration, getting nearer to the north pole than Nansen. His next great achievement was in Africa, where in 1906 he scaled the sixteen highest peaks of the Ruwenzori range, reaching an altitude of 16,810 feet.

DRAKE WANTS MONEY FOR ARREST BY POLICE

Says He Was Arrested Without Cause and Put in Jail.

Chalmers L. Drake, known generally as Charles Drake and one of the Socialist leaders in Allen county, has filed suit again Patrolman Ernest Paul and Chief of Police Martin H. Ankenbruck and William Doehrmann and Gustave and Hubert Berghoff, bondsmen, asking $5,000 for false imprisonment.

The complaint is voluminous and bears the signature of Henry E. Drake, as attorney. He is also the father of the plaintiff in the case. It sets out that on September 7, of last year, the complainant was on the street of the city and not fracturing the law in any way and that he was arrested, taken to police headquarters and locked up and that this gave him the humiliation of having the stigma of "jail bird" attached to his good name.

Drake was passing Socialist literature on the streets on last Labor day during the parade and the policeman asked him to stop as it is against the law to hand out circulars, handbills or any kind of similar matter on the streets. He and a companion who was with him refused and were taken to headquarters. They were informed that this was against the law and offered their liberty if they would quit passing the literature, but they were headstrong and impudent and were finally sent down to a cell.

Made Her Nervous.

Edna Pettit has filed a suit in the Superior court, asking a divorce from Charles Pettit. She says his cruelty has wrecked her health and she is now under a physician's care for nervous prostration. P. B. Colerick filed the complaint.

She Seeks Support.

Cora Dudondaufer has brought suit in the Superior court against Frank Tim alleging that she is his common law wife. He is a car inspector for the Pennsylvania company and she seeks $500 in installments of $25 a month. Emrick and Emrick are her attorneys.

OTHER PLACES SWEPT AWAY.

City of Mexico, Aug. 30.—Further reports indicate that several settlements have been swept away. The town of Caderata, situated in the river bottom, is said to have been destroyed and it is feared that there has been heavy loss of life in the country districts adjacent to the Santa Catarina river.

Wagons and carts are being used in Monterey to haul food supplies for the hungry. The local Young Men's Christian association and the members of the American colony are contributing money and food and aiding in the work of rescue. There is no communication with the districts outside of Monterey and fear for the safety of these sections is increasing.

A new case of scarlet fever was reported today at the city health office. The patient is Ferd Sauter, 2438 Force street.

DEADLY POISON WAS GIVEN THROUGH AN ERROR

Wiley Thimler Has Narrow Escape from Death in Drug Store.

Wiley Thimler, medical student at Northwestern university, Chicago, son of Theodore Thimler, residing west of New Haven, suffers from carbolic acid poisoning as the result of an error by S. R. Wyrick, prescriptionist at the Bradley drug store, who late Saturday evening gave Thimler a preparation for stomach trouble in which he had used carbolic acid by mistake. Thimler had an extremely narrow escape from death, but at the hospital it is stated today that he is improving, and Dr. A. H. Macbeth, his physician, believes the man will recover, though he is not yet out of danger.

The distressing affair created something of a sensation for a time. Manager Carl Gardner, of the Bradley store, has been absent on his vacation, and the store was temporarily in charge of Mr. Wyrick. Thimler, who stopped off in Fort Wayne while en route to Valparaiso to spend Sunday with some student friends, entered the drug store at 10:50 o'clock Saturday evening suffering from stomach trouble and asked for some medicine to relieve him. Wyrick stepped behind the prescription case to prepare a remedy of his own concoction, one of the ingredients of which is essence of peppermint.

Made Frightful Error.

In some unaccountable manner, Wyrick used carbolic acid instead of peppermint, stirred up the mixture over the soda water counter and gave it to Thimler. Wyrick watched the man drink from the glass, and says that when he saw Thimler's lips turn white he realized his mistake. He seized a bottle of alcohol and Thimler drank a large quantity of the fluid, followed at once by ipecac as an emetic, in the effort to expel the deadly poison from the man's stomach.

Dr. Macbeth was hurriedly summoned, and Thimler was in a semi-conscious condition when the physician reached the drug store. He ordered the man removed at once to St. Joseph's hospital, where he worked with the patient throughout the night in the effort to counteract the poison. It was 4 o'clock Sunday morning before Thimler regained consciousness. The man's mouth and throat are fearfully burned. His version of the affair and that given by Mr. Wyrick, who made the error, agree in all essential details. Thimler says he realized in an instant that he had swallowed carbolic acid, and it was his prompt action in taking the alcohol that probably averted fatal consequences. Wyrick says that there could not have been more than thirty drops of the poison in the medicine.

Dr. Macbeth said this afternoon that the patient is doing as well as could be expected, and that every hour increases his chances for recovery. Thimler is unable as yet to speak above a whisper by reason of the burned condition of his throat. His father is at his bedside.

FIVE KILLED WHEN FAST TRAIN HIT AUTOMOBILE

Pleasure Party of St. Louis People Slain Trying to Cross Track.

St. Louis, Mo., Aug. 30.—Five persons, all residents of this city, were killed yesterday when an automobile in which they were riding was struck by a Rock Island accommodation train at Vigus Station, Mo., near Creve Coeur lake. The automobile was dragged a quarter of a mile after it was struck. Hidden by a curve, the train could not be seen by the occupants of the machine until it was within fifty yards of them. Worshipers in the Vigus church, several hundred yards away, heard the crash of the collision and hurried to the assistance of the autoists and the passengers on the train, several of whom were badly shaken up.

The dead:

MISS HALYSIAN CAMPBELL, 2307 Wittemore place.

MRS. CARL A. KLINGE, 1741A Missouri avenue.

FRED O. WITTE, 5335 Vernon avenue, president Witte Hardware company.

THEODORE F. WITTE, 2324 Wittemore place, buyer for Witte Hardware company.

THEODORE F. WITTE, JR., 3 years old.

Hurled Into Ditch.

The dead men were brothers and Mrs. Klinge was their sister-in-law. Theodore F. Witte was steering the automobile. He was hurled from the machine into a ditch and was rushed in an automobile to the Jewish hospital, in this city, a distance of ten miles, but he died fifteen minutes after arriving there. The other members of the party were killed instantly.

The automobilists were on their way to St. Louis from Creve Coeur lake and the machine was running slowly when it reached the Rock Island tracks. The locomotive struck the machine in the center and demolished it. The Witte brothers were hurled fifty feet. The body of the boy dropped from the locomotive an eighth of a mile down the track. Both women were crushed in the tonneau.

Fred O. Witte had been a familiar figure for years in local hardware and mercantile circles and had built up one of the largest establishments of its kind in this part of the country.

His brother, Theodore F. Witte, was chief buyer for the firm and had always been his brother's right-hand man.

Members of the Witte, Klinge and Campbell households were prostrated when they received reports of the tragedy.

No Warning Whistle?

Theodore Witte, according to passengers on the train, said after he was picked up: "I saw the train, but I thought I could beat it across the track." Later on he said that the engineer did not blow his whistle or he could have stopped the automobile, as he was running slowly.

The train was traveling at a speed of between thirty-five and forty miles an hour when it crashed into the automobile, the front end of which had cleared the tracks. The top of the machine was up and the occupants had no chance to jump. The front seats were torn from the body of the car and thrown 100 feet with their human burden. Although Mike Hines, the engineer, gradually threw on his brakes, the train continued at a high rate of speed, bearing all the automobile except the front seats, with the two women and child, on its pilot.

The iron bed of the automobile extended three feet on the right of the engine pilot and when it crashed into the fence running up to a cattleguard about 200 feet from the crossing the body of the boy was thrown off to the right and landed in a clump of bushes near the bank of the creek. The train was brought to a halt about a quarter of a mile from the crossing. The tonneau of the automobile was loosened from the bed of the machine and fell off the front end of the engine and rolled down a steep incline into a hollow on the left of the tracks.

All the bodies were placed in a baggage car and taken to Clayton, the county seat of St. Louis county.

ADDITIONAL SOCIETY

Mrs. Herman Michael arrived home today on her return from Culver, where she was the guest of Chicago relatives at their summer home.

The Chrysolite Pedro club was charmingly entertained Friday afternoon by Mrs. Peter Fackler, 2624 Reed street, and honors were awarded to Mrs. Conklin, Mrs. Pappert and Mrs. Romy. Mrs. Charles Rulo was elected president of the club to fill out the unexpired term.

A most delightful gathering was held yesterday at the home of Judge and Mrs. W. J. Vesey when a number of relatives and friends enjoyed the hospitality of the judge and his wife. Among those present were Mr. and Mrs. W. J. Vesey, of Norfolk, Va.; Mr. and Mrs. Treat Vesey, of South Milford, Ind.; Horace Vesey, of Lagrange; Mrs. Helen Love and Helen and Robert Love, of Kansas City; John Niblick, of Decatur; Miss Edna Palm, of Austin, Texas., and Mrs. Cannon and three children, from California, who are the guests of Mr. and Mrs. Allen Vesey.

department today. Mr. Hanna says that the dead number 700 and that thousands are homeless. Good use, he says, will be made of all funds sent in care of the consulate. It might be gratefully remembered and appreciated. Mr. Hanna says, that the city of Monterey, of 100,000 inhabitants, does 85 per cent. of its foreign trade with the United States. Nearly every person in the city has suffered loss and very many of the poorer class have lost everything.

QUESTION OF RAILS CAUSING BOARD TROUBLE

No Contract Has Been Signed for the Paving of Calhoun Street.

There has been no contract signed for the paving of Calhoun street and the members of the board of works are holding off to see just what the property owners want but a more serious obstacle presents itself in the matter of securing rails for the tracks of the Fort Wayne and Wabash Valley traction company.

General Manager C. D. Emmons promised that he would give an answer to telegrams sent out sweer late this afternoon when he had by him to the steel mills but added that the best promise he had for the rails was thirty days and sixty days for the special work which embraces the switches and turnouts at Superior, Columbia and Lewis streets. The crossing at Main street will not be disturbed.

If the company can not secure the rails before a month it will mean that the concrete will have to be put in pretty late in the fall which is a dangerous proposition and there is grave fear that the work can not be done this year at all.

The property owners have not fully decided about what will be done in the matter of an injunction suit to prevent the letting of the contract but ample time will be given them to decide the matter as the resident property owners represent such small interest that the members of the board feel the majority of those who are to pay for the work ought to have some voice. An injunction suit will probably prevent the work this year.

ZEPPELIN HAVING A ROUGH TIME IN THE AIR.

[Continued from Page One.]

after noon yesterday. The voyage from Friedrichshafen, where the start was made at 4:30 o'clock Friday morning, was marked by an accident to the airship, which caused a considerable delay at Bitterfeld. At that point Count Zeppelin met the craft and was greeted by the crown prince, representing the emperor. The emperor himself witnessed the arrival of the airship here.

Two monarchs of the air, Count Zeppelin and Orville Wright, the foremost exponents of distinct systems of aerial navigation, met at Berlin yesterday afternoon for the first time. They were introduced to one another by the monarch of the German empire. Mr. Wright, during the course of a conservation with the emperor, was utterly surprised at his majesty's technical knowledge of flying machines and the results achieved. The emperor expressed regret that he would be unable to see Mr. Wright fly at Berlin owing to other engagements. In a talk with Count Zeppelin, Mr. Wright expressed admiration for the wonderful airship the count had constructed. He said he would like to see experiments with smaller craft on the same system, however, as vessels such as those used by the count were too expensive.

From one end of Berlin to the other the shout "Zeppelin is here!" rang out. The people's desire to see the giant dirigible with the renowned constructor at the helm cruising over the roofs of the capital was at last to be gratified. Berlin was happy, as the count had announced that at 12:30 he would appear over the Tempelhof parade grounds.

One Propeller Lost.

The airship left Bitterfeld early in the morning with the count, his nephew, Engineer Duerr, who had navigated her from Friedrichshafen, and eight others aboard. Some repairs had been effected, but only three propellers were working, the one which was lost not having been replaced. The motors worked perfectly, and the trip to Berlin was made without mishap. Wittenberg and Juterbog were passed amid the cheering of thousands. Potsdam, the city of palaces, was thronged with crowds to witness the flight of the airship. For some minutes the ship hovered over the gardens of Sans Souci, and then turned in the direction of Berlin, slacking speed so as not to arrive before the scheduled hour.

The roofs of houses, church towers and the open spaces in the outskirts of the city swarmed with people who cheered and waved flags and handkerchiefs as the vessel passed over. Tempelhof field was reached just after the conclusion of church services. The emperor and empress had motored from the dedication service of the newly built garrison church, which was burned down several months ago.

Church Bells Join Praise.

They arrived at the special tribune constructed in the center of the immense field just as the bows of the airship appeared over the edge of the parade ground. The hundreds of thousands who had gathered there sighted the craft at the same moment and a roar of cheering went up. "Zeppelin, Zeppelin," was the cry from every throat. The church bells rang out in merry peals and the military band played the national anthem.

Zeppelin meanwhile had descended to a low altitude and carried out a series of intricate evolutions gracefully in full view of the people, the sun glinting from the white envelope. Then the balloon's nose was turned toward the city, over which it circled for two hours in all directions, executing every manner of maneuver and ascending and descending, sometimes coming so close to earth that the spectators could see the faces of the occupants of the gondolas.

The emperor and empress, accompanied by the princes and princesses, proceeded to Tegel, where a small company gathered around the imperial group on the shooting range, which was destined to be the landing place. The city councilors, prominent military officials and the foreign attaches, including Capt. S. G. Shartle, the attache of the American embassy assembled there to await the arrival of the count.

Emperor Greets Wrights.

The emperor, who had specially sent Prof. Hergesell, government commissioner on airships, to invite Orville Wright and his sister to join the party, gave them a most hearty welcome. His majesty congratulated Mr. Wright on his success in air navigation. Then the balloon came slowly over the field, the motors stopped and the vessel glided to the ground. The band played and the emperor saluted as Count Zeppelin stepped forward. His majesty then advanced and shook hands heartily. He presented Mr. Wright to the count in the name of the citizens planist and Count Zeppelin exchanged congratulations. The mayor welcomed the count in the name of thee citizens and the emperor took off his helmet and called for three cheers for Zeppelin.

Later, with the count seated at his right, his majesty proceeded to the castle, where lunch was served. The spectators all along the route shouted themselves hoarse and waved flags until the procession disappeared. The emperor left for Swinemunde late in the afternoon, while Count Zeppelin returned to Friedrichshafen by train last night.

The airship started at 11:24 last night on its return voyage to Friedrichshafen. It took a southwesterly course.

We Want to Place Our Adjustable Shade Bracket

in every home in Fort Wayne and in this manner convince the people that we have one of the very best articles on the market today, in the way of a Shade Bracket.

We have reduced the price to 5c per pair—look at your woodwork and see how it is all marred up with the old-style bracket—especially, if you rent out your homes. One tenant will put brackets one place when house is vacated—the next tenant will put the shade bracket either just above, a little below, or, perhaps just outside the holes that are already made in the woodwork—by and by you will see nothing but holes and no place to put on small brackets any more. Your woodwork is ruined—now look at the cut of this bracket and you will see the difference between the old style bracket and the Adjustable Shade Bracket, they will last you a lifetime—no need of ever removing them after you once place them on your woodwork—for you can adjust this bracket to fit any width of shade. It is so simple that a child could do the work.

After brackets are placed on the woodwork, you unfasten small screw, adjust bracket to fit the width of your window shade, then tighten up screw again. It not only saves your woodwark, but your shades will last twice as long. When shades are properly hung, the edges will not wear out and shade cloth will not crack. Try them and be convinced that what we are telling you is the truth. Buy Treep's Adjustable Shade Bracket and you will use no other.

When you are down town, stop and look at the large display of brackets in our window, at the Wayne Paint & Wall Paper Co., 714 Barr St.

CURTISS CAPTURED MORE PRIZES IN THE AIR

Rheims Competitions Close With the American the Biggest Winner.

PRIZES AWARDED IN RHEIMS AIR RACES.

—Speed Prizes.—
Curtiss, first, $2,000.
Latham, second, $1,000.
Tissandier, third, $600.
Lambert, fourth, $200.
—Lap Race.—
Bleriot, first price, $1,400.
Curtiss, second prize, $600.
—Passenger Race.—
Farman, with two passengers, $2,000.
—Dirigible Race.—
Cobrenard, $2,000.
—For Altitude.—
Latham, first prize, 155 meters, $2,000.
Farman, second prize, 110 meters.
Paulhan, third prize, 96 meters.
—Mechanic's Prize.—
Bunau-Varilla, first, 100 kilometers, $400.
Rougier, second, 90 kilometers, $200.

Rheims, Aug. 30.—The close of the first world meeting of aviators was marked yesterday by Curtiss, the American aeroplanist, winning two prizes, one of $2,000 another of $600. The former was for speed, in which he took first place; the latter in the lap race, where he came in second to Bleriot.

Curtiss Saturday won the international cup for speed. Being the only flyer from America entered at the meeting, it is considered, in view of his achievements, that the United States got the lion's share of the honors of the week.

Aside from two accidents, the event's ending was everything that could be desired. Bleriot, in the morning, was soaring in his most powerful machine, when suddenly the motor stopped and the propeller ceased revolving. The machine fell and smashed the overheated engine, which set fire to the escaping petrol. Soon everything that could be burned was reduced to ashes.

Red Cross Comes to Aid.

Near the Red Cross temporary hospital stood a man with a telescope sweeping the whole plain. Beside him an automobile was ready to start at a second's notice. As soon as Bleriot fell assistance was rushed to him. He soon was in the nurse's hands. His injuries, considering that he had fallen sixty feet, were slight, but his nervous system received a bad shock.

An analysis of the prize winners, a list of which appears above, shows that the Curtiss bi-plane won the eighteen and twelve mile races, the Farman bi-plane the duration and passenger races, while the monoplanes won the height and lap races.

Cortland Bishop, president of the American Aero club, has cabled the club offering to imitate a subscription for a gold medal for Curtiss similar to the one given by the club to the Wrights.

Curtiss had some trouble in winning his bigger prize yesterday. He went out for the speed prize at 3:30 and covered eighteen miles in 24 minutes 15 1-5 seconds, but being under a penalty of 10 per cent. in addition to 5 per cent. each for not contesting on Sunday an Tuesday in the same race, his time became 27 minutes 51 2-5 seconds. Then the committee discovered that he was driving a different aeroplane from the one he used on his previous appearance in this race, so he was penalized another 5 per cent., making his time 29:11 2-5.

Latham Tries It Again.

Latham decided to make another attempt for the prize. Taking out the machine he previously had driven, he covered the course in 25 minutes 18 1-5 seconds. This machine being penalized 5 per cent. made his time 26 minutes 33 1-5 seconds.

It was now 4:30 and Curtiss had until seven to recover first position. At 5:28 he was off. His laps were made in 7 minutes 49 2-5 seconds, 7 minutes 48 2-5 seconds; 7 minutes 48 1-5 seconds, making his total time, with penalty, 25 minutes 49 seconds. This time was not attacked, and consequently he won the $2,000 prize.

Curtiss went for the lap prize afterwards. His time was 7 minutes 51 3-5 seconds, which left the honor with Bleriot, who made the distance in 7 minutes 47 4-5 seconds.

La Vitesse prize, $4,000 (today's speed prize) divided four ways, was distributed to the four machines making three rounds of the course, thirty kilometers, at the greatest speed. Curtiss won handily, Latham being second; Tissandier, third, and Lambert, fourth.

Curtiss Gets $7,600 and Cup.

Curtiss missed winning the lap contest by a small margin. He captured second place in that event, which was over the full circuit of 6.21 miles, raising his total money winnings for the meeting to $7,600, besides the international cup.

Bleriot's accident in the speed contest removed the American's most dangerous competitor. With Bleriot out, Latham was Curtiss' only serious rival. The race was exciting. Latham with "No. 13," started only four minutes ahead of the American, who gave chase. Curtiss overhauled him in every kilometer.

Brequet figured in the second accident. He took out an unwieldy aeroplane of his own invention which has been the joke of the meeting as it never left the ground, and in attempt to get into the air, the machine pitched on to its left wing and its tail went up until the apparatus was standing on its head. Brequet was dumped out and slightly hurt. He reached the hospital soon after Bleriot. He was fixed up in a short time, but his apparatus will take a long time to repair.

Farman Starts High Flight.

Farman was the first competitor in the contest for the altitude prize. He often has been accused of flying low. His record flight on Friday never exceeded ten feet in height, but today he showed that he could fly high. A captive balloon was marked at a height of sixty yards. He soon sailed over it and, continuing circling, he rose steadily until he seemed to be over 300 feet in the air.

Paulhan tried, but his repaired Voisin machine refused to rise to any considerable height. Then Latham began with his monoplane. He took wide circles, sometimes going beyond the limits of the plain, and continued to rise until many of the spectators became anxious for him, thinking of what the result would be should his engine stop.

"Papa" Levvasseur, as the engine's maker generally is called, watched him with confidence. Latham reached a height of nearly 400 feet, but the award will not be made public until later, when the committee has corrected heights as given by the sealed barometers carried by each competitor and by trigonometrical observations.

The passenger carrying contest was won by Farman. With two passengers he made the circuit of the course in 10 minutes and 39 seconds.

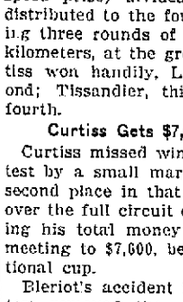
"Heavier than Air" the Better

The meeting has emphasized the defeat of the lighter than air machines by the heavier than air machines. The dirigible balloon race figured on each day's program. The military dirigible, Colonel Renard, made several appearances and a smaller dirigible, the Zodiac, made one which was not too fortunate, but today each succeeded in making the five laps the race demanded. The Colonel Renard's time was 59 minutes 49 seconds, the Zodiac's 85 minutes 1 second.

Between 1:30 and 7 o'clock sixty-six aeroplanes passed and repassed the grandstand. Young Bunau-Varilla, whose father gave him an aeroplane for winning his law degree, learned to fly at this meeting. He covered several laps in 1 hour 50 minutes on the first trial. Latham was finishing the third round for the speed prize when he overtook Delagrange and passed him. Then as Latham slowed down to descend Delagrange overtook him. Latham's mastery of the monoplane alone prevented a disaster.

AFTER SUFFERING ONE YEAR

Cured by Lydia E. Pinkham's Vegetable Compound



Milwaukee, Wis. — "Lydia E. Pinkham's Vegetable Compound has made me a well woman, and I would like to tell the whole world of it. I suffered from female trouble and fearful pains in my back. I had the best doctors and they all decided that I had a tumor in addition to my female trouble, and advised an operation. Lydia E. Pinkham's Vegetable Compound made me a well woman and I have no more backache. I hope I can help others by telling them what Lydia E. Pinkham's Vegetable Compound has done for me." — MRS. EMMA IMSE, 833 First St., Milwaukee, Wis.

The above is only one of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which prove beyond a doubt that Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, actually does cure these obstinate diseases of women after all other means have failed, and that every such suffering woman owes it to herself to at least give Lydia E. Pinkham's Vegetable Compound a trial before submitting to an operation, or giving up hope of recovery.

Mrs. Pinkham, of Lynn, Mass., invites all sick women to write her for advice. She has guided thousands to health and her advice is free.

The board of school trustees will hold a special meeting this evening to confer upon routine matters in relation to the new school buildings.

Tomorrow we will take about 250 Men's fine suits that we have been selling at 20 per cent. discount and put them in with the half-off suits for the last five days of our great sale. Read "ad" on page 5.

OUR NEW BANKING ROOMS

We have pleasure in announcing that the new rooms being prepared for us in the new fire-proof building now under course of construction on the old Aveline House site will be on a scale commensurate with the position of this bank as the oldest National Bank in the state and the largest National Bank outside the capital city. Our new vaults will be a surprise to everyone and will compare favorably with vaults in the largest cities. The matter of safety has had our first consideration, but we have tried not to overlook beauty of construction and perfection in point of all facilities to be enjoyed by the public. We hope to occupy the new rooms by December 1st.

We shall be glad to have you call on us and discuss the opening of a new account or any other question of financial or commercial interest to you.

Our Resources are in Excess of Four Millions.

THE PEOPLE WANT TO KNOW.

In issuing an order to the police to enforce the liquor laws Chief of Police Ankenbruck only mandated the police to their duty in a simple performance of his own. The statutes of Indiana, not the mayor or the chief of police of Fort Wayne, define the privileges and fix the prescriptions for the conduct of the saloon business. When Chief Ankenbruck declared the "illegal sale of liquor must and will be stopped," he had framed no law, had established no regulation, had proclaimed no edict that was not in force by decree of the law-making power of the state and had set himself no task that was not already heavily upon him by the law's written word and his own oath of office. Conditions during the last two Sundays have merely been what the law says they shall be. We trust Chief Ankenbruck has taken this step not because of criticism but because it is his duty, a duty in the performance of which it is hoped he will persist.

After next January first there will be a new regime in the city hall. What is to be the policy of the next administration as to Sunday closing? Will the policy of law enforcement on Sunday be continued under the next mayor? Specific statement of their positions should be had respectively from Mr. Schmidt and Mr. Grice. One or the other is going to be the next mayor and the people of this city have a right to know in terms that cannot be misconstrued, misunderstood or given more than a single meaning what they purpose to adopt as a "law and order" policy, according to the democratic statement of the issue, or a "public morals" policy, according to Mr. Grice's statement of the issue.

There is a widespread demand for specific utterance by each of the mayoralty candidates on his purpose in respect of the enforcement of the liquor laws.

Assistant Secretary of Commerce McHarg proves to be another man who should have heard, but never did, of the parrot that forced its loquacity on a bulldog. That modern fable is an essential part of the education of every up-to-date public man. Mr. McHarg has added it to his equipment, though a little tardily. The under secretary thought to add to the gayety of the Ballinger-Pinchot controversy by taking a hand in it, which he did through the medium of an interview in which he turned the analytical batteries of his mind on Theodore Roosevelt one time president of the United States. If Mr. McHarg's purpose was to curry favor with his chief he may have done so, but it availed him nothing. He was apprised that his resignation would not shock the administration and he tendered it as per delicate intimations and President Taft has accepted it. Mr. McHarg did not thrust his critical prods remotely enough into history for a subject when he picked Theodore Roosevelt for impalment. President Roosevelt's conservation policy was popular not because it was a Roosevelt policy but because it had the country's approving judgment to back it, and when the smooth currying McHarg attacked it he started something that any ordinary intelligence could easily have foreseen.

Aviation week at Rheims furnished an impressive demonstration of the nearness of man's practical conquest of the air. Speed, endurance and control all had signal exhibit in the competitions, but there were at the same time such mishaps as told the convincing story of crudeness in the developments of the aeroplane. This in time will be overcome as inventors and bold experimenters derive from actual tests what the faults of their machine are. Two accidents there, serious in their consequences to machines, though happily not to their intrepid aviators, were due to the failure of the power which turned their propellers. Here has been the demonstrated weakness of flying machines, as seen in Latham's two hopeless attempts to fly the English channel and in several essays of the aviators at Rheims. On the whole, however, the week's competitions were such as to give promise of rapid developments in heavier than air machines. Within the next few days Orville Wright will be in the midst of a series of tests under the auspices of the German government and more remarkable achievements in flying may be looked for with confidence. The pioneer in aeroplane construction and aviation will not be content to rest long without the laurels that have just been stripped from his brow at Rheims.

The policy which governs operation of the municipal lighting plant is some points too particular in observance of the contingency of moonlight. That results in many heavily shaded streets being kept sometimes for considerable periods in darkness. The moonlight schedule of lighting is a species of economy that has been largely abandoned, and may be altogether very well abandoned in cities which, like Fort Wayne, own and operate plants for street lighting. Let there be light, plenty of it when light is needed. The moon should have little place in the lighting economy of Fort Wayne.

Not to be outdone by the enthusiasm of the French over the achievements of their native aeroplanists Berlin went into very ecstasy of joy over the arrival of the Zeppelin airship from Friedrichshafen, though the performance itself can hardly be regarded as remarkable in view of what the German count has already done with his gigantic sky vessel. Still, it was a long journey and, though the spectacular feature was marred by mishap which delayed arrival, its appearance at the imperial capital was well calculated to stir up great enthusiasm.

Contemplating all the brilliant doctoring he has had and is going to have, we feel impelled to congratulate Mr. Harriman on having the price. In the same condition an ordinary man might get no more than old-fashioned squills with a bill for a dollar visit and a fifty-cent prescription.

When Mr. Harriman got sicker the bull a bear would be and when Mr. Harriman got better he was simply a short on a riotous jag from drinking the panic waters.

The dumps at Rheims and Count Von Zeppelin's troubles with his airship furnish proof that man-flying is yet an infant sport.

It is shown that Fort Wayne can keep her lid on straight when she tries.

SHOOTS GIRL AFTER WARNING.

Boy Pulls Trigger and Shatters Arm of His Cousin.

Winamac, Ind., Aug. 30.—"Don't do that; that's the way people get killed," was the warning given by Pearl Goodpasture, 14 years old, to her cousin, Dea Goodpasture, 9 years old, as the boy pointed a gun at her. Both knew the gun was loaded, and, although the youngster did not intend to shoot, he accidentally pulled the trigger and the charge shattered the left arm of the girl. They were alone in the house, and the wounded girl held her arm tightly to prevent the flow of blood until members of the family could be summoned from the field. Physicians found it necessary to amputate the arm just below the shoulder.

OF ALL DRY LAWS ALABAMA'S ARE DRIEST

State Has Gone to Extreme End to Enforce Its New Statutes.

Birmingham, Ala., Aug. 30.—With the adjournment of the extra session of the legislature this week Alabama took a stand to become the driest territory in this country if not in the world. The laws went into effect upon their passage, and already their effect is felt all over the state.

These prohibition acts are the most far reaching and drastic in existence. Every possible safeguard against the sale of liquors and beer in the state was taken, and all loopholes of escape or evasion as practiced by the liquor interests under the imperfect state wide laws were closed.

These laws, which have already practically stopped the sale of liquor in this state, are expected to be made permanent by a constitutional amendment putting prohibition in the organic law. The legislature by a large majority, which is thought to have reflected the public sentiment of state, enacted a provision giving the people the right to vote on constitutional prohibition in ninety days, and the election has been set for November 29.

The campaign has opened with lively prospects of being one of the most vigorous and bitter witnessed in Alabama since the civil war. The forces are lining up on both sides.

Issue Not Backed by a Party.

An interesting feature of the situation is that while every candidate for state offices from that of governor down has been eager to get into the prohibition band wagon none of them would have a ghost of a chance were they to announce on the prohibition platform. Prohibition is the issue, but no one dares to adopt it as a party cry.

The belief of many politicians is that the constitutional amendment will be adopted by a considerable majority, but it will have to encounter the influence of a large amount of money turned loose by the liquor interests, which are making a last desperate stand in Alabama territory.

The laws which went into effect a short time ago bid fair to revolutionize the social conditions of the state which have been in vogue for a century. The traditions of hospitality for which Alabama has been famed almost ever since it was settled by the white man are being overturned, and an entirely new order of things in entertainment has been introduced.

Club life in the state is practically demoralized. The clubs are almost deserted, and many of their members are talking of disbanding. This includes country clubs, golf clubs, boat clubs, and shooting clubs, as well as the leading social clubs in the cities.

Locker Clubs Are Abolished.

The locker club system, which has flourished in the larger cities as a substitute for the saloons under a decision of the supreme court regarding the state wide prohibition law that liquors could not be seized in places where they were stored unless it was proved that they were so stored for the purpose of sale, have been put out of business under the new laws.

Where there were over 200 locker clubs in Birmingham alone there are now none. They are closed tight and the liquors have been removed. Even the private citizen is handicapped in getting liquors to his home, as the law puts the local deliverer out of business and prohibits the railroads and express companies from delivering this class of goods C. O. D.

These strenuous measures were the result of the attitude of the liquor interests in defying the movement from its inception. The leading "antis" freely admit that if the liquor men had been willing to consent to high license and restricted area, so as to abolish the dives and joints from which the constantly increasing record for crime in the industrial centers was generated, and had shown a determination to observe the laws strictly there would never have been a prohibition campaign in this state.

"Wets" Overrated Their Strength.

They overated their strength, however, and not only aggravated matters by undertaking to control local and state politics in entering campaigns and elections as an organized influence, but after local option was adopted, and later when state-wide prohibition became a law, they assumed a defiant attitude. In Mobile and Montgomery especially, and to some extent in Birmingham, they discredited the law in every possible way and fought its provisions through the courts, even to the highest tribunal in the state, with threats to carry the contention to the United States court.

ROBERT J. ALEY HERE.

State Superintendent of Public Instruction in the City.

Robert J. Aley, state superintendent of public instruction, arrived in the city last evening from Indianapolis and was a guest at the Randall hotel. Mr. Aley was en route to Lagrange and Angola, where he will attend county teachers' institutes this week. The state superintendent spent some time with Superintendent Study, of the Fort Wayne schools, while in the city.

SHORT CAMPAIGN PROMISED.

Fifteen Days is Limit, According to South Bend Politicians.

South Bend, Ind., Aug. 30.—That the coming city campaign will be of short duration is the opinion of the democratic and republican politicians. Indications are that the caucuses will be held following the home-coming week and that both the leading parties will fix their conventions for about fifteen days before the election, which will be held Tuesday, Nov. 2.

During the last five days of our great sale we will sell about 300 fine Knickerbocker Suits for children three to seventeen years of age at just half price.

New Class of Medical Advisers Develops in New York.

New York, Aug. 30.—This community has developed in recent years a special class of physicians, who in a town of fewer democratic professions might attach to their signs the proud testimonial, "By special appointment of Wall street." They minister to stomachs that have burned out their vitality in the mad hunt for dollars. Some of them have only a sigle patient like those who devote themselves to men like Mr. Rockefeller and Mr. Harriman.

Others who are engaged at given periods accompanying their patients in travel, and nearly all are under a retainer which enables them to restrict their practice to the few who assure them a better income than they could get if they attended to all comers. They maintain establishments in the choice residential districts and must live with all the outward show of the wealthy to whom they cater.

The kind of a breakdown that destroys a normal appetite and which Wall street induces may be classed as one of the burdens of wealth. A green old age is more of a rarity in the quarter where bulls and bears disport themselves than is wrinkled withered poverty, showing the ailments for which a majority place themselves under the treatment permitted only to the rich.

Sound Stomachs Mighty Few.

If the best known names were selected from the offices in the Wall street district they would furnish a fairly accurate list of those whom specialists are treating. There are few sound stomachs in the lot, and they grade from cases of aggravated debility, like Harriman's kind, which does not rebel at being filled with food carefully selected, as does that of Gates.

Men like Gates give the impression to an observer that they eat everything. On the contrary, only plain food is allowed them; they must avoid spices and sauces and the fanciful concoctions to make which chefs draw high salaries. There are many whose digestive apparatus rebels at meat, but who may partake of vegetables, and others who dare trust themselves with only the merest bite at midday and others who can take little more than invalid food.

Russell Sage's midday apple furnished a text for pleasantries to those who did not know that he paid lavishly for the advice that held him to a spare diet and enabled him to outlive by many years his early competitors in the speculative race.

When Mr. Rockefeller's health was bad milk was his strongest portion, and whatever accompanied it had to be easily digested.

Mr. Morgan is a careful eater, realizing that he could not stand an indiscriminate diet even if he were so disposed. Mr. Rogers could take only the plainest food, and H. M. Flagler is almost an ascetic in his table habits.

The taste for buttermilk which has been developed in recent years has been shared with the common folk by the rich. There are bankers downtown who keep it in their offices and frequently indulge in it. Some of them are drinking as much as five quarts a day and practically living on it.

Alcohol has no place in this kind of regimen and doctors do not need to forbid it, for those who need medical care know well that artificial stimulation of that kind breaks down their health faster than medical skill could repair it. The use of tobacco is general among such men, and it is not discouraged by their advisers.

Exactly what derangement happens with the men who demand expert attendance could not be described in the terms that would generally apply. The only remedy is plain living, and fortunes are spent every year in getting prescriptions for it.

SANK TO HIS DEATH BY DROWNING AS STORM RAGED

Oscar Sutter, 12 Years Old, Loses His Life in Delta Lake.

During the terrific storm shortly before 5 o'clock Saturday afternoon, Oscar Sutter, 12 years old, son of Mr. and Mrs. W. H. Sutter, 615 Fifth street, met death by drowning in Delta lake, where, with several companions, the lad had been enjoying a swim. His body was not recovered until 7:40 o'clock, when it was found in ten feet of water just outside one of the bathing pools by Sergeant Harkenrider and Patrolman Beyerle, of the police department. There was no trace of the effect of lightning and it is believed Sutter was caught in the storm and went down while attempting to reach the landing.

When the storm broke the lad's companions hurried for the dressing rooms and called to young Sutter, who was a good swimmer, "All right; I'll be there in a little bit," he replied, and evidently started for a final swim, but was overcome by the storm. No one saw him sink, and as the storm subsided search revealed his clothing still hanging in the dressing room. The Sutter boy was employed by the Red Line Messenger service, and when he did not report for work Saturday evening, the company notified his parents. His father got into communication with the police in his search for his son and then learned that a boy had been drowned in Lakeside. The agonized father identified the body at the Klaehn & Melching undertaking rooms.

The boy was the eldest son of Mr. and Mrs. W. H. Sutter, and was born in March, 1897. He was a pupil at St. John's Lutheran school, and had recently been confirmed in that church. The parents, three sisters and two brothers survive. The father is connected with the Fort Wayne Saddlery company.

INVITATION

Everybody is invited to visit the Lake Everett Park—Tonawanda Park, the new name; Big Twi-Twee and Little Twi-Twee, the names of the two lakes connected. This is the park visiting season, and the water views between the trees (no landscape perfect without water), are delightfully charming, particularly from the North Side Flats, where are the tall elms, 100 feet high with vines climbing to the extreme tops of the trees.

A BAD MISTAKE

SOME PEOPLE never make mistakes, but Patterson-Fletcher Co. do--and our last mistake was to advertise in outside papers and bill boards all over the city that our Great Half-Price Sale would last until September 5th. Well, the "Sale" will last, but the Half-Price goods did not last. We have never known such a sale--Summer Shirts, Ties, Hats, Suspenders, Garters and Men's, Boys' and Children's Clothing is practically all closed out, and yet there are FIVE MORE DAYS of this sale, and

Here Is What We are Going to Do During Those Five Days

We have about 250 Men's and Boys' Staple Suits that we have been selling during the sale at 20 per cent. discount. We will let these go this week at just HALF PRICE.

CHILDREN'S DEPARTMENT---Here we have nearly 300 Fine Knickerbocker Suits, ages 3 to 17, that we have been selling at 20 per cent. off. These will go this week at just HALF PRICE, and Odds and Ends will be sold at prices never heard of before. Sixty odd Knee Pant Suits will go at 98c a suit. Some of them are $4.00 and $5.00 suits.

OUR SPECIAL OFFER THIS WEEK---Our sales are to advertise, and part of the time during the NEXT FIVE DAYS we are going to advertise our New Fall Stock.

FOR EARLY BUYERS—On account of our light weight stock being so badly broken, we have placed on sale our entire stock of new fall suits, top coats, light weight fall overcoats, dress suits, shirts, ties, hats, children's clothing, etc., and until Saturday night we will give on these goods a discount of 5 per cent. This is not much of a discount, but it's well worth saving. We will give you the largest and finest stock of clothing shown in the state. School days will soon be here—our discounts will more than buy the boy's school books.

PROGRAM COMPLETED FOR METHODIST DAY OBSERVANCE

Fifth Reunion at Robison Park Will Attract Several Hundred People.

The auspicious observance of the fifth annual reunion of Allen county Methodists at Robison park on Thursday promises to be the occasion of an immense gathering of people. A year ago over three thousand participated and this year, with the excursion of the Union Sunday schools of Huntington, the members of which number fully fifteen hundred, an unusually large attendance will characterize the day's celebration.

With Rev. Dr. C. U. Wade as chairman, Rev. J. K. Cecil, O. E. Mohler and H. C. Schrader as members of the committee on arrangements, the following program for Methodist day has been completed:

11:00 a. m.—Sermon .....
Rev. Charles A. Rowand, Marion, Ind
12 o'clock ..... Dinner
1:30 p. m. .....Addresses
"Methodism from the Wesleys Until Today."—Rev. B. S. Hollopeter, district superintendent Wabash district.
"Methodism—Its Faith and Doctrine."—Rev. C. C. Cissell, district superintendent Logansport district.
"Methodism and Its World-Wide Aims."—Rev. J. L. Nattzger, district superintendent Muncie district.
"Methodism—Its Evangelistic History and Spirit."—Rev. S. Light, district superintendent Goshen district.
"Methodism—What of Its Future?"—Rev. T. M. Guild, district superintendent Richmond district.

The North Indiana conference quartet will sing and all who can are urged to spend the day at the park and attend the celebration. Thursday evening at 8 o'clock at the First Methodist Episcopal church, corner Lafayette and East Wayne streets, a grand free concert will be given. It will be under the auspices of the Epworth league and the quartet will give the concert assisted by Miss Celia Hofer, reader. The concert is open to all who desire to attend.

TRINITY M. E. CHURCH NOTES.

Plans to Be Made Tonight for Old People's Annual Meeting.

Plans for the annual meeting or service for the old people at Trinity Methodist Episcopal church will be made this evening. The committee of arrangements is formed by the pastor, Rev. W. P. Herron, Miss Lucinda Frase and Mrs. Ellison Meiers. A meeting will be held tonight at the home of Miss Frase, 632 East Third street, and a program arranged.

The regular monthly meeting of the trustee board of Trinity Methodist Episcopal church will be held at 7:30 o'clock Friday evening in the trustee room of the church.

On account of the observance of "Methodist day" on Thursday, the regular monthly meeting of the Woman's Foreign Missionary society of Trinity M. E. church will be held on Wednesday afternoon. Considerable interest attaches to this meeting, as it will mark the close of the missionary year. Reports will be presented, mite boxes opened and all moneys due the society must be turned in to the treasurer. The annual election of officers will be a feature and the attendance of all members of the society is urged by the pastor, Rev. Wm. P. Herron. The meeting will be held at the home of Mrs. L. J. Meiers, 1517 Franklin avenue.

AMONG THE CHURCHES.

Daily Record of Current Events in Religious Circles.

Prof. and Mrs. August Bornitzkie and children, of Erie, Pa., have arrived in the city and will reside at 1633 Oakland street. Prof. Bornitzkie has been engaged as teacher at Trinity German Lutheran school. He is recommended as a very successful teacher and has been engaged in scholastic work for eight years.

The Young Peoples' society of Calvary United Brethren church will give an ice cream social Thursday evening on the lawn at the home of Frank Opatz, 1153 Harmer street.

An important meeting of the session and trustees of Bethany Presbyterian church will be held this evening.

Plans are progressing for the Bible school rally to be given September 26, by the Third Presbyterian church and earnest effort is being made to have five hundred in attendance. The bible school rally day committee is formed by Miss. Elizabeth Beattie, chairman; Mrs. C. M. Chambers and Mrs. George Wirth, assistants.

An ice cream social will be given by the Fort Wayne Arion band and the Luther society of Grace Lutheran church at Gay and Pontiac streets on Wednesday evening.

The Wednesday evening prayer meeting at the Third Presbyterian church will be conducted by the Woman's Missionary society. At the last meeting those attending heard an instructive report from the General Assembly at Denver. The report was presented by Dr. Chambers who was a delegate.

Mrs. John H. Bosch and children, of St. John's Reformed church, will spend Tuesday with friends in the country and on Thursday will leave for a visit with Miss Johanna Allermann at Wapakoneta, Ohio. Rev. Bosch is at St. Ignace, Mich., where he will remain for three weeks. There will be no services at St. John's church next Sunday except the Junior Endeavor meeting in the afternoon. Sundays, September 12 and 19, the pulpit will be supplied.

The regular monthly meeting of the board of stewards of Trinity Methodist Episcopal church will be held on Tuesday evening at the church.

The Ladies' Sewing Circle of Trinity German Lutheran church will be entertained on Thursday afternoon at the home of Rev. and Mrs. Paul Stoepleworth, 1636 St. Mary's avenue.

Rt. Rev. Bishop Alerding has returned from his cottage at Rome City and will begin fulfilling confirmation appointments the early part of September.

Rev. Edward Kleismeier, pastor of Salem Reformed church, will preach next Sunday at the mission festival to be given by the German Reformed church at St. Mary's Ohio. He will leave on Saturday for St. Mary's, accompanied by Mrs. Kleismeier and little son, Calvin. A pulpit supply will be secured for the Sunday morning service at Salem church.

Wednesday evening at 7:30 o'clock all members and friends of Bethany Presbyterian church are urged to attend a meeting at the church when a call will likely be issued to Rev. C. O. Shirey, of Polo, Ill. Rev. Dr. David W. Moffat, pastor emeritus of the First Presbyterian church, will moderate the Wednesday evening meeting at Bethany.

The Catholic and Lutheran parochial schools of the city will open for the new scholastic year on Tuesday morning, September 7.

Delegates to the Y. W. C. A. Central City conference at Lake Geneva, Wis., have returned home. The sessions are reported as most interesting and profitable and a thoroughly enjoyable time spent by the many attending. The attendance this season was particularly gratifying. For the local branch this was a banner year, the largest number of delegates in its history being sent. Several association members who were not delegates took an active interest in the conference and attended the sessions.

Rev. Dr. and Mrs. Frank M. Fox, of the Third Presbyterian church, will likely return this week from their month's vacation.

Rev. Chrysostom Hummer, C. PP. S., pastor of the Precious Blood church, has returned from St. Charles' seminary, Carthagena, O., where he attended the annual retreat of the Fathers of the Most Precious Blood.

The first division of the Ladies' Aid society of the First Methodist Episcopal church will meet on Tuesday afternoon, September 7, at the home of Mrs. Elsie Burger, 1609 East Wayne street.

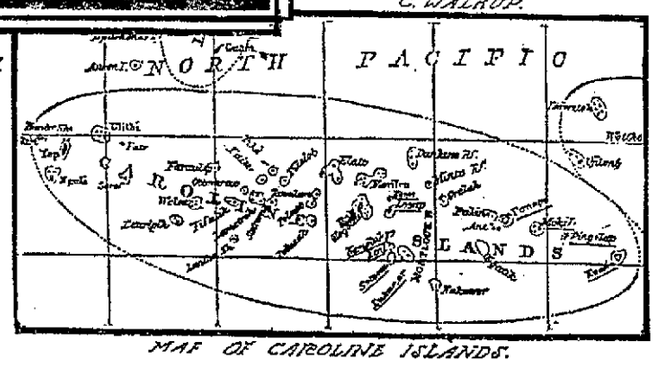
A meeting of the consistory of Salem Reformed church will be held on Tuesday evening, September 14, the members meeting at the church hall.

The Woman's Missionary society of Westminster Presbyterian church will meet on Thursday afternoon at the home of Mrs. B. J. Roberts, 1416 Walton avenue. Mrs. Simmons will lead the meeting.

LOST MISSIONARY VESSEL AND HER COMMANDER.

CAPT. AND REV. ALFRED C. WALKUP.

THE LOST MISSIONARY VESSEL, THE HIRAM BINGHAM.



MAP OF CAROLINE ISLANDS.

New York, Aug. 30.—The announcement of the tragic end to the faithful labors of the Rev. Alfred C. Walkup, an American missionary among the Gilbert islands, was a great shock to the American board of commissioners for foreign missions and also to thousands of Sunday school children the country over, to whom Mr. Walkup was known as their "captain missionary".

According to a cable dispatch from Sydney, N. S. W., Mr. Walkup was on the Hiram Bingham II., the missionary vessel, when it capsized in a squall off the Carolina group. Mr. Walkup and the native crew of four took to the boat, in which, after three weeks of buffeting storms and suffering hunger and thirst, the crew finally reached Ebon islands, but Mr. Walkup had succumbed to starvation. The children, it was reported, had left for this country. Mrs. Walkup died some time ago.

The Hiram Bingham II. cost $37,000 and it was largly paid for by thousands of children in the Sunday schools, mission bands and Junior Christian Endeavor societies of Congregational churches all over this country. The children called the Rev. Mr. Walkup their "captain missionary" because he lived on the boat and spent his time cruising among the Micronesian islands, preaching and teaching, superintending the schools and the work of the native pastors in the mission stations the American board maintains there.

American boys and girls have already paid for half the little ship by taking out shares at ten cents each. All "shareholders" were called "shipmates" of Captain Walkup.

Walker—Teibeat.

Though it was solemnized on the 14th of this month, the wedding of Miss Lulu Teibeat and Mr. Edward A. Walker has just been announced. The news was greeted by the friends as a great surprise for the couple had made every endeavor to keep the matter quiet. The bride and groom are now ensconced in their home at 535 West Fourth street. Mr. Walker is the head bookkeeper for the Eckart Packing company.

Graper—Luntz.

The wedding of Miss Minnie Luntz and Mr. Henry Graper, which occurred last Thursday afternoon at St. Paul's Lutheran church, Rev. Jacob Miller officiating, was largely attended and was one of the pretty affairs of the week. The bride was exceedingly beautiful in a lovely gown and the maid of honor, Miss Katherine Trautman; bridesmaids, Misses Edith Nieter and Minnie Trautman, were also becomingly gowned. The groom was supported by Mr. Fred Luntz and Mr. Fred Vollmer, while Ed Vonderau and Mrs. Fred Trautman acted as ushers. Following the wedding a reception was held at the home of the bride's parents, fully a hundred being invited to that occasion. The couple will reside temporarily with the parents of the bride.

Kimono May Be Made in Few Hours

BY MRS. JANE FORD.

7 SIZES 32 TO 44 BUST

Every woman likes pretty kimonos, but the busy matron usually feels she cannot spend much time in making such garments and so does without or buys ready to wear articles. As a solution of this problem a negligee that can be completed in a few hours has been designed and is shown here. Fortunately the lines are such that they will become stout figures.

The pattern for this house dress may be bought in seven sizes and will fit women whose bust measure is between thirty-two and forty-four inches. To copy the model for the average woman only eight yards of goods twenty-seven inches wide, or seven and three-eighths yards thirty-six inches in width will be needed. Of contrasting material for trimming one yard thirty-six inches wide will be required.

As this kimono is plain, without tucks or pleats, the design is more suitable for making from sheer cotton fabrics such as lawn and batiste.

French flannel, cashmere or eiderdown would be exceedingly pretty made in this style and banded with strips of silk of a matching shade.

For an October bride a kimono of pale blue or rose pink French flannel would be pretty if trimmed with bands of white satin, embroidered with blue or pink, to match the material used in the making of the garment.

A less elaborate form of hand work and one that is effective is feather stitching. This can be quickly done, and if a heavy twisted silk is used, placing a row on either edge of the bandings, it will give the garment a dainty tuch that is most pleasing.

The sleeves may be finished in either of the designs described and trimmed accordingly.

IN THE THEATERS

What is described as hodge-podge of mirth and music, under the title of "King Casey" will be offered at the Majestic on Wednesday evening with Johnny and Emma Ray in the star parts. The Rays have been seen here many times and have always proved one of the strongest attractions playing the Majestic. Their first visit was in "Down the Pike," which packed the theater on three separate occasions, and they were again at the local play house last season in the same play as will be presented this time. "King Casey" is said to be the brightest of all sure-fire musical comedies, and Mr. Ray's work as the hotel fireman and then as king of a cannibal island assures a night of riotous fun and good music when they arrive in town.

At the Lyric.

The popularity of the Lyric theaters new policy of vaudeville has shown steady increase since it was inaugurated. Excellent attractions are responsible for this and Manager Hartman's efforts to give the Lyric the character of a family theater are meeting with success. The acts for this week are Knight brothers and Marion Sawtelle, the Kindis and Clen Burt, all entertainers in a class of distinct merit. The new pictures this week are four of the best subjects that have been seen in the city.

ELKS ENJOY PICNIC AND BALL TEAM WINS OUT

One Accident Mars the Sport of the Day at Corner Gun Club Park.

B. P. O. E. No. 155 had a picnic at the Corner Rod and Gun club park all day yesterday and among other things that were done the ball team slaughtered the team from the Alexandria lodge by a score of three to two.

Aside from the fact that couple or so of the members tried to establish friendly relations with a family of yellow jackets and got stung for their pains the only accident was to Chris Hahn who stepped on a broken bottle in the river and cut his right foot severely. Dr. Garrett Van Sweringen was there and dressed the wound and while it is painful it is not regarded as serious.

Music, plenty to eat and some tub races and things were down on the program and furnished a day of most excellent enjoyment. There was fried chicken and all of the good things that go with it and Gart Shober and his Citizens' band supplied the music and not a dull minute was spent by the 500 or so of Elks who were present.

The ball game was the occasion for some real playing and at no time was anybody sure of the combat until three men were down in the ninth inning. Jamey pitched his first game for the local club and got away with it. The score:

	R.	H.	E.

TRAINS TO BE RUN FOR THE GREAT FAIR

Nickel Plate and Grand Rapids Arrange for Big Excursions.

There will be plenty of accommodations for the people who want to come to Fort Wayne for the great fair to be held from September 14 to 18 as already two special trains have been arranged for and their is a probability that a third will b put on for at least one day.

Nickel Plate day has been a big feature for the last two years and it will become a fixture with the management because it attracts a lot of people. On Wednesday of the fair the Nickel Plate people will run a special at a low rate from Hammond and with good weather it will bring in a great crowd. For two years the average has been a thousand and as a bigger and better fair is being arranged this year the directors think the attendance will be increased.

The Grand Rapids will run a special train the same day from Howe, the station formerly known as Lima, and the same road will run specials south as far as Winchester to accommodate the patrons who want to return home Thursday and Friday evenings.

Another deal is one with the Lake Shore for a train from Hillsdale and with the rates that will be offered by traction lines the situation is very encouraging to Dr. W. F. Myers, the secretary. The mail this morning was heavy and there was a big bustle on to get it attended to. Attractions, privilege men, exhibitors and others are flooding the secretary and he has a hard time keeping the business from falling behind. Among the best entries secured today was a heard of cattle entered by Anthony P. Hottinger, of Avilla.

Croft's celebrated tailored hats were never so beautiful as they are this season. To be had only AT MERGENTHEIM'S Opposite Court House.

Small Toques and Turbans of Velvet Will Be Worn This Fall

Elderly women will rejoice when the new fall millinery is displayed, for the word has been sent from Paris that the toque is to be the most popular hat for autumn, and will be worn by all women, whether they are sixteen or sixty years of age.

Toques and turbans, I am told, comprise the latest millinery, and the latter is quite as becoming to middle aged women as the former—more so, in some cases—notably when women carry themselves well, and prefer smart clothes to pretty ones and consider being well groomed of first importance.

This latter type never looks so well as when dressed in a stylish, up-to-date turban.

So much for the shapes. The coverings are to be largely of velvet, terry and moire, either alone or two in combination.

Velvet will probably be used more this season than it has been for several years past, the large velvet bow worn so much on hats this summer being evidently the harbinger. So far the new models display whole crowns of velvet. Almost invariably these are in soft tam effects, the brims being covered perfectly flat with heavy silk or terry.

A new fabric that is being introduced for hat coverings is called hatter's plush. This is heavier than velvet, but not so harsh as the genuine plush. It drapes much better than plush and has the depth of tone and sheen of the heavy kind, so that no doubt it will be popular.

Trimmings will also be appropriate, for the stiff aigrette is to be fashionable. Another bit of good news is that these expensive feathers can now be imitated in such perfection that it is almost impossible (except by the price) to tell the real from the false, and recently I saw a bunch that will be sold at $1.75 and compared it with a real one, exactly the same size, priced at $8, and failed to discover the slightest difference. It will be possible to get white, black and wistaria aigrettes. I don't know about other colors, but white and black are always most wanted.

The novelty bandeau trimmings will be much used again this year. These come in combination effects of chenille, jet, heavy lace, straw, braid, sequins, etc., and will be put around crowns or lie on a narrow brim.

Wings will be favorites with elderly women. Soft, broad ribbons will be preferred to heavier kinds for bows; in fact, the decorations generally will be light, while the coverings for the hats will be heavier than usual. For instance, one of the latest models from Paris shows a tam crown and a narrow brim, slightly tilted at the left side. The former is of velvet and full, the latter of terry. The crown is sewed to the brim in such a way that no band between is necessary, and the sole ornamentation is a large bunch of white osprey caught with a cut jet cabachon.

Judging from advance models, I prophesy that millinery for the coming season will be handsome, generally becoming, and more practical than the hats we have been accustomed to for several years.

CLEARY HUSTLES TO GET SHAMROCKS A GAME

Milos Miss Train and Garrett is Substituted for Toledo Team.

For the first time since he has been manager Mart Cleary was disappointed in a booking yesterday when he was notified at 10 o'clock in the forenoon that the Toledo Milos had missed a train and could not get here for the game with the Shamrocks in the afternoon, so he had to hustle and by good luck got Garrett and put on an exhibition that was probably better than the Toledo club could have supplied. The locals won by a score of 3 to 0.

Dennis featured the game with two great catches and Doc Koons picked one off his shoestrings for a grand finale that was some catch. Dietrick in left field was the star performer for the visitors. He nabbed two hard chances and his throwing was high class.

Six hits were chalked against Robbins, but only three of them were clean. Koons lost Parody's high fly in the sun in the first inning and it went for a double when it should have been an easy out. Grant bunted and instead of coming in for the ball Third Baseman Smith ran for the bag and there was nobody to field the play. In the fifth Depew hit one at the pitcher and he could have retired the runner at first, but nobody covered the bag and by the time he had turned to throw to second it was too late. In the sixth he got out of a bad hole when three hits filled the bases. He started a double play that caught a man at the plate and one at first and then "Mox" Wiedmann picked the third one off third base for him. The Shamrocks scored two in the fourth on a double by Farnan, a single by Jack Smith, a passed ball and a wild throw by Depew to third. Dennis scored in the eighth on a single, a stolen base, a balk and Jack Smith's hit. The score:

A GIANT STAR WHO HAS "COME BACK" AFTER SLUMPING BADLY

"CY" SEYMOUR

"Cy" Seymour has "come back." The veteran outfielder of the New York Giants, who had so much trouble in the early part of the season, has come into his own, and is clouting the ball at a terrific clip. In fact, it was "Cy" who started the Giants off on their winning gait. The rest of the club followed suit, with the result that the team is now well up with the leaders.

"Cy" is a veteran, and has always been rated as a good hitter. One year he outhit the great Hans Wagner and led the National league. It was as a pitcher that Seymour first broke into fast company, and he sure was an erratic young star. With curves as wide as a house, but with very little control, he certainly did some queer stunts. McGraw made an outfielder out of him, and he at once came to the front. With his hitting ability and a good strong arm, he made an excellent man for the outfield. "Cy" says he is going after Wagner this year, and is confident he will catch the mighty Dutchman before the close of the year.

GRAND RAPIDS HERE FOR THE FINAL SERIES

Six Days and Seven Games on the Program—Uhl is Let Out.

Grand Rapids will be here for the final series of the season tomorrow and Manager Joe Raidy will present several new faces for local fandom, as Purl Larue has been let out since the club made its last appearance in Fort Wayne and Sundheim, a Chicago boy, is in his place at third base. "Lefty" Core is in the outfield and the club has a new outer gardener in the person of Hartman.

There will be three games, opening with ladies' day, and Dayton will follow with four games in three days, one postponed game remaining to be played off. Fort Wayne may present a new first baseman in the person of George Betts, who has played here with the Krell-French team of Newcastle. Fred Uhl was let go after the series at Wheeling and Robertson has been playing the bag.

Manager Hendricks wired Mart Cleary to secure him a man and he tried to get Niswander, who was here yesterday with Garrett, and who has been playing first for Kendallville, but he could not come without giving up his job. Betts is not a certainty, but a strong effort will be made to land him. McDermott is still crippled and Clark is out of the game for the rest of the year, but a man will be secured in case of accident to Hechinger. The remaining games to be played are with the second division teams and most of them are on the home grounds. If Wheeling can trim Zanesville there is a fine chance for second place, as the distance is not so great that it can not be overcome. The road series that will have been completed with the double header today will finish up with the two leaders.

There will be a meeting of the "Allen County Sunday School Association," held at the home of the secretary, Mrs. Nettie Hubler, on Thursday, September 2, 1909, at 2 o'clock p. m. This is the first meeting of the year, and a very important one. We hope the members will make a special effort to attend.

E. A. K. HACKETT,
Chairman.

DETROIT GETS AWAY WITH BIG LEAD AND WINS

Manning Tightened Up, but It Was Too Late—Athletics Win.

Detroit, Mich., Aug. 30.—Detroit mixed six hits with errors and a pass in the first two innings and got such a lead that Manning, who was good after that, had no chance. New York could do nothing with Donavan until he eased up in the ninth, two bases on balls allowing one run in the eighth, and three doubles after two were out, two more in the ninth. Engle was the fielding star. The teams do not play today, the game being transferred from that date. The score: R.H.E.

HARRY CORNS GIVES SEVEN HITS IN A DOUBLE

Gets a Victory and a Near-win out of Matinee at Zanesville.

[Special to The Sentinel.]
Zanesville, O., Aug. 30.—Manager Jack Hendricks chucked Harry Corns in the first game of the double bill here and the left-hander got away in such great shape that he volunteered for the second scrap of the fray and while the best he could do was to get a draw he allowed only seven hits in the two games and displayed good generalship. His control was a bit off color in the opener, but he showed better in the second and his performance was highly satisfactory.

In the first game Fort Wayne scored in the opening inning when Lloyd made a mess of Donahue's grounder. Channell was retired, but Donahue was advanced on the out and scored on Elston's triple. The argument was sewed up in the fourth. Elston was passed and Fremer advanced him with a hunt. Hechinger's single scored him. Rapp booted Robertson's grounder and Lindsay hit to left, but Hechinger was nailed at the plate by Houtz. Corns hit for two bases, sending Robertson and Lindsay across.

Zanesville's only run was a present. Houtz was passed in the sixth, went to third on Wares' double and scored on a wild pitch. The last run was made by Channell in the ninth when he was passed and stole second and scored on hits by Elston and Fremer.

Fort Wayne got the first run of the second game in the opening round. Houtz muffed Blount's fly, Donahue advanced the runner on a sacrifice and Channell hit, scoring the run. Another was added in the fourth, but it was not enough to win. Channell hit for two sacks and raced home on a drive to Lloyd who hit the runner in throwing to the plate.

Joe Connolly did all the damage in the third. Houtz was hit by a pitched ball, after Spangler had been passed and advanced on a sacrifice and Lindsay fumbled Wares' grounder, filling the bases. Connolly cleaned up with a triple. The scores:

BOWLERS WILL MEET AGAIN.

Friday Night Set for the Next Gathering of Pin Knights.

While there was a good attendance at the meeting of the bowlers at the Brunswick alleys yesterday afternoon to organize two leagues for the season, it was decided to postpone the election of officers until Friday night, when there will be another meeting at the alleys. Many of the bowlers sent word that they would be out of the city and could not attend and the enthusiasm shown indicates that there will be a big revival of the sport.

William McKay, the proprietor of the alleys, explained that he would put his establishment in good shape for the leagues and would not have anything to do with the management of affairs, preferring to leave this to the men who will form the clubs.

CHOLERA INFANTUM CURED.

"Something like two years ago my baby, which was then about a year old, was taken seriously ill with cholera infantum, vomiting and purging profusely, writes J. F. Dempsey, of Dempsey, Ala. I did what I could to relieve her but did her no good, and being very much alarmed about her went for a physician but failed to find one, so came back by Elder Bros. & Carter's store and Mr. Elder recommended Chamberlain's Colic, Cholera and Diarrhoea remedy. I procured a bottle of it, went home as quickly as possible and gave the baby a dose of the remedy. It relieved her in fifteen minutes and soon cured her entirely." For sale by all druggists.

S.S.S. THE CURE FOR SCROFULA

The usual symptoms of Scrofula are enlarged glands of the neck, sores and ulcers on the body, skin affections, catarrhal troubles, weak eyes, and general poor health. The inherited poison, transmitted through the blood, pollutes and weakens this fluid, and in place of its nutritive qualities fills the circulation with scrofulous matter, which saps the vitality of the entire system. Thousands of children, born with a scrofulous taint, have spent their childhood in constant physical suffering, and grown to manhood or womanhood handicapped by ill health and stunted growth, and perhaps later some disease of the bones or joints developed. S. S. S., given in their early life, would have prevented this. It would have cleansed and purified the blood of the taint, nourished and stengthened their systems, and assisted each to grow into strong, healthful manhood or womanhood. S. S. S. is the very best remedy for Scrofula. It goes down to the bottom of the trouble, and cleanses the circulation of all scrofulous matter. It supplies the weak, diseased blood with strength and health-building qualities, and under the purifying effects of this great remedy all symptoms of Scrofula pass away. S. S. S. contains no minerals in any form, and is an absolutely safe treatment for children, even infants, or persons of any age. Literature about Scrofula and any medical advice free. SEXTON TAKES SNAPSHOTS OF FROLICSOME GHOSTS.

No 1. TAKEN MARCH 1ST 1909, 10.25 P.M. ITALIAN NOBLEMAN'S SON.

No 2. TAKEN MARCH 15TH 1909. 6.59 P.M. A WOMAN.

No 1. [illegible] PHOTOGRAPH OF ITALIAN NOBLEMAN'S SON RETOUCHED BY MR. LINDGREN.

New York, Aug. 30.—A strange story of ghosts is told by Soren Lindgren, who until recently was sexton of the historic old chapel of the Comforter, which is supported by the Ascension parish. Lindgren has not only seen the spirits of them, but he has taken photographs of two of them.

These strange mysterious figures, according to the sexton, congregate every evening at the foot of the altar.

So interested did the sexton become in the movements of the departed spirits that he purchased a camera and lay awake at night to take snapshot pictures of them.

"About eleven o'clock at night," Mr. Lindgren said yesterday, "I heard a rap on the door of my bedroom. Positive that I had locked the front doors, I was puzzled to know how any one could have entered. I threw open the door, and standing in the dark hallway, I saw the figure of an old man with a long, flowing gray beard. I asked what he wanted and instantly the figure vanished.

"Early the next night" he said, "as the old man approached the altar, I fixed my camera in position and gave the picture a long exposure. Mrs. Lindgren was with me and we went directly to our apartment and developed the picture. Only the white outlines of the man's face, head and beard were shown in the photograph, but by using a pencil on one of the negatives I succeeded in drawing an excellent likeness of the mysterious figure."

BIG CRANE CARRIED DOWN IN STORM SATURDAY

Blow in Late Afternoon Was Furious, and Much Damage Resulted.

The high wind accompanying the furious storm late Saturday afternoon carried down the large movable crane used in elevating coal in the engine room at the power station of the Fort Wayne and Wabash Valley Traction company on Spy Run avenue. In its descent the big crane struck the water tank which surmounted the station and toppled that over also. The monetary damage will be extensive, but nobody was injured.

The blow accompanied a deluge of rain and a big electrical display, and the damage from uprooted trees will be extensive. At Lindenwood cemetery the havoc to the trees by the wind was on a considerable scale and every part of the city suffered similarly. The storm was of short duration, but it was unusually severe.

On the dairy farm of Franklin Trick, three miles north of the city, a barn was struck by lightning just as Albert Treyey and Lester Moon drove into the structure to escape the storm. Both men were rendered unconscious, and Treyey in falling struck against a post, cutting a gash in his scalp. Neither of the men was seriously hurt.

RALPH YARNELLE WINS.

Captures Single Honors in City Tennis Tournament.

Ralph Yarnelle Saturday afternoon won the title of champion in the singles at the Keklonga Golf club tennis tournament, which has been in progress for about five weeks. Miss Katharine Hoffman won the same honor in the women's tournament.

Yarnelle was matched with Roger Fisher in the final battle. Three sets in five constituted a match in the masculine division of the tournament. Yarnelle won three in four, the scores being 6-3, 1-6, 6-3 and 6-3.

Matched with Miss May Smith, Miss Hoffman won the woman's title in sets in which two in three constituted a match. She won the first 6-1 and the second 6-0.

Play was also started in a mixed tournament, the losers of which were to entertain the winners at dinner, but it had to be called off on account of the storm which came up at 5 o'clock. These matches will be played off next Saturday and will likely close the formal tennis season at Keklonga.

It is said the Jenney Electric Light company will go extensively into the manufacture of a motor patented by young Jenne, who is quite a genius. The other day he propelled the machinery of the Jenney works by electric power. The company might, however, light the city according to contract before undertaking much other business.

For some time past there has been talk at Wabash of the formation of a hydraulic company for the purpose of purchasing the old canal between Wabash and Lagro and renting power therefrom. Messrs. Shirk and Dukes, owners of the canal, are the prime movers in the scheme. The water is to be used in turning machinery, a purpose for which the feeder canal here is so admirably adapted.

THE SHOP AND RAILROAD NEWS

FORMERLY RESIDED HERE.

Mrs. Charles Kirkpatrick is Dead in Valparaiso.

Mrs. Charles Kirpatrick died at her home in Valpariso, Ind., Sunday morning of tuberculosis of the lungs, after an illness extending over several months. The funeral will be held 'n that city Tuesday afternoon and will be attended by a number of people from the towns along the line of the Pennsylvania road. Mrs. Kirpatrick will be remembered in railroad circles as Miss Hiser, a telegraph operator in the employe of the Pennsylvania company. Mr. and Mrs. Kirpatrick were formerly residents of Fort Wayne, and while here lived on Michigan avenue.

PENNSY'S FIRE SYSTEM.

Seven Miles of Water Pipes at Altoona.

To determine the efficiency of its own system of fire protection, the Pennsylvania railroad has undertaken a thorough test of its fire fighting facilities in Altoona, where there has just been finished a new and unique high pressure water system, for fire protection purposes only, and without connections with any other distribution pipes. The insurable value of property there is more than $6,000,000.00; not to speak of the large Juniata shops, where the company builds many of its locomotives.

Gridironing the expensive machine and car shops at Altoona are more than seven miles of large water mains, with seventy-two two and three-way hydrants, supplying 184 streams of water. These afford a protection, which from exhaustive tests, has been shown to make very remote the possibility of a serious fire. In addition to two fire engine companies, chemical extinguishers are distributed through the shops, while sand and water pails, hose racks, chemical engines, water casks and ladders add to the equipment with which these railroad fire fighters are armed. Some 31,000 feet of cotton rubber-lined hose are available for utilizing the water from the hydrants, which, owing to the unique arrangement of the mains, and valves cannot be shut off from their water supply by breaks in the pipe lines.

At the test in Altoona, a number of supposititious fires were started in different parts of the railroad shops, and firemen, with their helpers responded to fight imaginary flames. Some thirty-two regular firemen, and a score or more of the auxiliary force directed the streams of water, while inspectors checked up the results.

Exactly 1,397 fires occurred in 1908 on Pennsylvania railroad property valued at more than $260,000,000.00. It was damaged only to the extent of $346,149.00. Of these fires, 274 were extinguished by the railroad's employes with the company's own apparatus with slight loss. The reduction of its fire loss to such a minimum means that the railroad has had to make it practically impossible for a conflagration to start in its yards and terminals. It has been working to this end for thirty odd years, and today its system of fire protection represents the most extensive and comprehensive undertaking of its kind as yet made by any private corporation.

WERE ROYALLY ENTERTAINED.

Pennsy Boys From Columbus Had Good Time Here.

The visit of the Panhandle motive power clerks here last Saturday, as the guests of the motive power clerks of the northwest system, was one of the most pleasant of the half dozen or so of the meetings the men have held. The program for the day was somewhat interferred with by a delay of two hours of the train which brought the Columbus boys to the city. As a result of this delay, the ball game billed for 2:30 o'clock was not called until 3:30 and at the close of the seventh inning, the storm broke and forced a retirement from the field. The game, as far as it went, was a most exciting one, resulting in a tie of 7 to 7. This result, one of the members of the Columbus team laid at the door of L. Larason, their short stop, "who," he said, "made the most miserable attempt at ball playing ever witnessed on a diamond and lost the game for us." Otherwise, Larason is all right. The result of the tie will be another game to be played at either Columbus or Bucyrus in the near future. Following the game came the banquet at the Elks' home. Covers were laid for seventy-three people. Adam LaMar, of this city, was the toastmaster, and G. P. Brown, shop clerk at Allegheny, was the chief speaker, or "big noise," as the boys called him, for the visitors. The Daseler orchestra, with fifteen pieces, furnished music for the occasion and the bill of fare could not have been better. The visitors left for their home on an early Sunday morning train.

TRAIN STRUCK WAGON.

One of Occupants Hurt; Two Others Escaped.

The engine pulling a Pennsylvania freight train at 9:30 o'clock last evening struck a wagon on a crossing at Hobart, Ind. The vehicle was occupied by two brothers, named Laounsburg, who owned the outfit, and by a lad named Herman Kitzman. The latter was bruised about the hips, not seriously, and the two men escaped without a scratch. The pilot struck the rear wheel of the wagon, turning it nearly around, and put it out of commission, but the horse escaped injury. The injured lad is the son of a farmer residing in that vicinity.

TWO ENGINES COLLIDE.

Engineer Pittman and Fireman Dickson Fatally Injured.

Reed City, Mich., Aug. 30.—Engineer C. Pittman and Fireman C. A. Dickson were fatally injured today in a collision between a light engine and a work train on the Grand Rapids and Indiana railroad near here. Dickson lost both legs. The scene of the accident is seventy miles north of Grand Rapids, the home of the victims.

ABSENT ONES RETURN.

The working force at the Pennsylvania shops, which was somewhat crippled last week on account of the absence of a number of the men, is in better shape today, many of the absentees having resumed work. Among them are J. C. Traxler, T. R. Mueller, C. D. Waterson, F. X. Miller, F. Rothenberger, J. H. Barry, Y. A. Shady, Frank Laughlin, Fred Dreyer, John Siebold, Charles Siebold R. F. Baals, Philip France, W. P. Kyle, H. E. Teeters, W. H. Miller, L. H. Cullen, George Gable, L. H. Dornte, E. L. Uebelhoer and F. W. Roebke. The latter was operated upon June 18 for appendicitis and until today has not worked since. The others were off duty various lengths of time and for different reasons. Some were hurt, others were sick and some were away on vacations.

1909 BUSINESS BEATS 1908.

The business of 1909 in every industry in Fort Wayne promises to be far heavier than was the business of the year 1908. This will be particularly true in the house building and building material trades. A dealer in lumber told a Sentinel representative Saturday that so far this year business was 50 to 55 per cent. better than for the same period of last year. "At present," the lumber dealer said, "we are having difficulty in getting out lumber and planing mills products fast enough to meet the demand, and from the number of houses I know of that are to be built this fall and the early part of the coming winter, there is going to be a greater demand for building material the latter than the first part of the year 1909."

TRAVEL TO LAKES FALLS OFF.

The G. R. & I. and the Lake Shore experienced a considerable falling off in traffic to the lakes Saturday night and Sunday morning, due in a great measure to the storm Saturday and the cool weather which followed. Each road had less than 800 passengers out of the city to the lakes on the dates named. The Wabash did well with its Toledo excursion, however, taking 293 out of Fort Wayne to that city and 26 to Detroit. The Nickel Plate carried quite a number of passengers into and out of the city on its dollar round trip rate.

TICKET SALESMAN RESIGNS.

W. R. Adams, who has been assistant to Ticket Agent Harry Pinniger, of the Lake Shore and Lake Erie and Western for the past four months, has resigned and will retire from that position tomorrow night. He has taken a responsible position in the Union depot in Minneapolis, the duties of which he will assume next Wednesday.

ATTENDING COMMITTEE MEETING.

Fred M. Graham and G. W. Hill, of the Pennsylvania, and C. L. Barnaby, of the G. R. & I., are attending a committee meeting of the maintenance of way department of the Pennsylvania at Pittsburg today. Mr. Hill went as far as Steubenville, O., Saturday evening and spent Sunday with his parents in that city.

SHOPS CLOSED TOMORROW.

The appropriation for shop expenses on the Wabash has been exhausted and as a result the shops in this city will be closed tomorrow. Work will be resumed Wednesday morning.

INDUSTRIAL NOTES.

Machinist Charles Simons was the guest of friends in Huntington over Sunday.

Machinist Thomas Kennedy took a position at the Wabash shops this morning.

Dr. Kaadt, surgeon for the Wabash, has just received a handsome new Maxwell automobile.

Shell Conover is a new messenger in the Electric works. He commenced work there this morning.

H. Kramer, Floyd Libbing and W. M. Meyers resigned positions at the Wabash shops this morning.

James Cull, of the Pennsylvania machine shop, took his family to the lakes yesterday for a week's stay.

Machinist T. C. Patton, of the Wabash, will take his wife to Chicago for a visit the latter part of the week.

V. C. Miller, a painter at the Pennsylvania shops, and his wife have gone to the lakes for a two weeks' stay.

Hi West, of the maintenance of way department of the Wabash, spent a few hours in the city this morning.

George Kloepper and C. Haslup, Wabash pipefitters, have returned from Chicago where they visited a few days.

August Maisch, who had been sick, resumed work in the shipping department at the Electric works this morning.

Carl Mennewisch, a son of Machinist F. W. Mennewisch, has taken a position as messenger in the Pennsylvania shops.

H. W. Haag, stationary engineer at the Pennsylvania power plant, went to Alliance on business for the company today.

T. L. Comparet resumed his duties in the Bass offices this morning, having just returned from a two weeks' sojourn at Clear lake.

Machinist Theodore Michel, of the Bowser works, and his mother have returned from Lake George, where they spent a week.

After a two weeks' vacation Engineer J. A. Miller and Fireman G. F. Gerlock have returned to their duties on the G. R. & I. road.

Jacob Ensch, who resigned a position at the Wabash shops last week, has taken employment as blacksmith's helper at the Pennsylvania shops.

Night Yardmaster A. W. Hicks will enter upon a two weeks' vacation tomorrow, when he will take his family into Minnesota to visit relatives.

H. C. Dickey has resigned the superintendency of the Winona Electric railway and has been succeeded by Mr. Alexander, who had been his assistant.

Lieut. W. G. Bates, of the Pennsylvania police force, will return from Missouri, where he spent his vacation, tomorrow. He was accompanied on the trip by Mrs. Bates.

The latter part of this week Machinist W. H. Johnson, of the Wabash, and his son will leave for Fulton, N. Y., where they will spend two weeks with relatives and friends.

W. A. Johnson, of the Pennsylvania, enters upon his vacation tomorrow. He will spend a portion of the time with his relatives at Columbus, accompanied by Mrs. Johnson.

C. E. Walton, of the Chicago Terminal division of the Pennsylvania, is looking after some business affairs and visiting old friends and associates in the city. He will return home tomorrow.

Otto Hitzeman, of the Bass offices, went to Huntington yesterday morning to meet his wife and spend the day with relatives and friends. Mrs. Hitzeman had been visiting her parents at Rochester, Ind.

E. F. Thomson resumed his place at the desk in the master mechanic's office at the Wabash shops this morning. He had been taking a ten days' vacation, which he spent at Niagara Falls and with his folks at Logansport.

H. S. Gates, who had been making a ten days' eastern trip with some of the members of his family, returned home Saturday and resumed his duties in the Pennsylvania freight office this morning.

Alex. Henderson has returned from a three months' trip abroad and will resume his duties at the Wabash machine shop in a few days. Mr. Henderson has worked in that shop a third of a century.

M. S. Willson, foreman of the testing room at the Electric works, was down town Saturday afternoon for the first time in four weeks. He is suffering from lumbago and rheumatism and is making rather slow progress towards recovery.

Foreman C. L. Hepp and Blacksmith Thomas Mungovan went to Peru yesterday to see August Roembke, who is in the hospital in that city. He was operated upon a few days ago for rupture and is getting along first rate.

This is the last week for Adolph Hofer in the capacity of clerk to Signal Inspector G. E. Hill, of the Pennsylvania. Mr. Hofer begins a course of studies at Purdue university when the fall term of school opens. He has been at the signal office about two years.

Labor leaders in Fort Wayne are contemplating the re-organization of the plasterers and teamsters, who allowed their union to lapse. There is still one union teamster in the city and he is a member of the Federation of Labor. He is very anxious to reorganize the teamsters.

The Lake Erie and Western has put in a siding two and a half miles north of Hartford City and it has been named Hawk in honor of J. W. Hawk, chief train dispatcher of the road. For a while the new track will be used for unloading crushed stone to be used in building a country road.

Mr. and Mrs. Henry C. Rose, who were married last Thursday, left this morning for Convoy, Ohio, where he is engaged in the harness business and where they will reside in the future. Mrs. Rose was formerly Miss Sophia Brandt, daughter of Herman Brandt, foreman of the Rhinesmith & Simonson lumber yards.

Henry C. Rippe, stenographer for Motive Power Superintendent T. W. Demarest, is taking a vacation which he will spend at home on account of the condition of Mrs. Rippe, who has just left the hospital after a successful surgical operation. During Mr. Rippe's absence Frank Hickman will serve as stenographer to Mr. Demarest.

Electrician P. J. Sweeney and Chief Engineer George Hautch, of the Pennsylvania power plant, have returned home, after a week's outing at Rome City. The members of their families were with them. Herman Wisfeld, a pipefitter at the plant, also reported for work this morning. He had been spending a week with friends in Chicago.

Residents of Angola are making good use of the privilege of buying commutation tickets between that city and Fort Wayne. These tickets were designed for the cottages at Lake James. Crooked lake and other summer resorts up that way, but the Angola people find them quite handy in their shopping trips to Fort Wayne. They cost less per trip than regular fare.

The Lake Erie and Western will have its last excursion to Indianapolis on Sunday, September 12. There will also be only one more Sunday excursion over that line to Cincinnati, so far as known at present. The excursions to those cities, while quite well patronized, have not been the large affairs they were before so many people commenced going to the lakes on the Lake Shore road.

ITALY'S ALPINE TROOPS IN HARD TRAINING.

ITALIAN TROOPS ON PRACTICE MARCH IN THE ALPS.

The troops which protect Italy's frozen frontiers in the Alps spend several weeks every summer in hard training among the great mountains, including marches through abrupt and difficult passes. Toward the close of the field drills the soldiers usually make a passage across some very uneven ground broken by glaciers.

In the accompanying picture is shown the Ivrea battalion of the Fourth Regiment Alpini crossing the Glacier Rintor. The men made the passage from La Thuile to Valgriseuche in twelve hours. They encountered heavy fog part of the time and endured a temperature as low as fourteen degrees below zero.

TOPIC OF PRESENT IMPORTANCE

Personal health is and snould be one of the greatest considerations of life, and as so many local people are praising the new remedy, Root Juice, it is not surprising that so many of the afflicted people of this county are so enger to talk about it and get all of the information they can in relation to the many remarkable cures it has made and is making. It invariably proves a great and agreeable surprise to weak, nervous, dyspeptic, constipated people, for after using it for a short while the soothing, healing and tonic properties of the wonderful remedy removes irritated and sore conditions from the linings of the stomach, bowels and bladder, heals and strengthens the liver and kidneys to healthy action, resulting in a good appetite, food well digested, free from rheumatic poison, and it soon nourishes and strengthens the whole nervous system. The people at the drug store are proud of the wonderful merits of Root Juice, and gladly tell all interested of much of the great good it is doing here. Said to Have Bought Road For Harriman.

Mexico City, Mexico, Aug. 30.—Mr. David E. Thompson, United States ambassador to Mexico, it is rumored here, has bought for approximately $10,000,000 gold the Pan American railroad, and as owner of the only line running from the North to the Central American border will remain in this republic permanently, though he has announced his intention to resign his diplomatic post.

The Pan American road, including a number of short branches, is two hundred and ninety-nine miles long. The main line extends from Gamboa, in the state of Oaxaca, across the Tehuantepec isthmus country to Mariscal, on the Guatemala border, opposite which terminus, across the Suchiate river, is the flourishing Central American city of Ayutla. This main line is two hundred and eighty-six miles in length. Building toward Awutla is the Guatemala City Northern railroad, owned by the Hubbard interests of New York, which is now finished to a point within twenty-five miles of that city. With the completion of this line it will require the mere spanning of the river to effect railway connections from the western extremity of the Pan American line to the capital of this Central American republic.

INTENSE COLICKY PAINS RELIEVED.

"For some years I suffered from intense colicky pains which would come on at times and from which I could find no relief," says I. S. Mason, of Beaver Dam, Ky. "Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended to me by a friend. After taking a few doses of the remedy I was entirely relieved. That was four years ago and there has been no return of the symptoms since that time." This remedy is for sale by all druggists.

Telfer Paxson, residing north of Bluffton, is preparing to enter the ministry.

City Attorney F. M. Prickett, at Kendallville, will bring suit against citizens to collect delinquent poll tax.

Mrs. Hannah Walker, 83, is dead at Albion. She was the widow of Israel Walker, a pioneer Noble county farmer.

Arthur H. Sapp, of Kansas City, has been appointed principal of the William street high school at Huntington.

Butler Ambers, of Bluffton, is in jail at Muncie, charged with having beaten his sweetheart, Mabel Householder, also of Bluffton.

Nellie McGinnis, 11 years old, of Markle, was thrown from an auto in an accident near Liberty Center Sunday and badly injured.

Lightning struck the barn of Leonard Malone, two miles west of Lagrange, and the building was entirely consumed. Loss, $1,500.

Mrs. Joseph Mickley, of Huntington, is recovering from a shock received Friday evening, when she was rendered unconscious by lightning.

James Grove, of Bluffton, 28 years of age, was found dead upon the street there Sunday morning. He had been subject to attacks of heart disease.

John Penrod, son of Mr. and Mrs. Francis Penrod, near Bluffton, is dead as the result of a fall from a bicycle, which he sustained on Wednesday.

George Wolf and Miss Bessie Levering and Charles Wolf and Miss Alta Sell were married in Whitley county Sunday. The bridegrooms are brothers.

Police commissioners at Logansport are offering a reward of $100 for the detection of persons who set fire to three residences in that city Friday night.

During the storm in the vicinity of Corunna Friday lightning struck a sheep pen belonging to Charles Gushwaw, north of that place and killed all of the entire flock of nine.

Wellington Lower, pumpman for the Lake Shore railroad at Corunna, was killed by a train at that place Friday night. It is thought Lower had seated himself on the track and fallen asleep.

Miss Kate Fulton, well known Huntington woman, died Saturday evening in the Huntington hospital. Miss Fulton was for many years a teacher in the Huntington schools.

John Gushwa, of Lagrange, had himself shaved for first time in his life by a barber a few days ago. He is 62 years old. He was preparing to visit a relative near Goshen he had not seen for thirty-two years.

Myrtle Wright, the 14-year-old Huntington girl who was enticed away from her home by a strange man several days ago, has been found near Lana. She had been deserted by the man and was anxious to return home.

While Mrs. Jacob Smith and her son were driving near Bluffton, one of the cows in a small herd they were passing attacked the horse the woman was driving. The rig was knocked into a ditch, but the occupants escaped injury.

Ed W. Jennings, 32 years of age, a passenger on a Toledo and Chicago interurban car, was fatally injured near Auburn Junction Saturday when he leaned from a car window and his head struck a trolley pole as the car rounded a curve. Jennings died a few hours later in the hospital at Garrett. He lived at Fostoria, Ohio, but had been employed for some time on the farm of his father-in-law, John Potts, near Corunna, and was en route to Akron, Ohio, when the accident occurred.

Mrs. A. J. Yoder, of New Paris, suffered a dislocation of the shoulder and a broken collar bone and her three companions narrowly escaped serious injury Friday night when an automobile in which they were riding plunged down an embankment near Milford and turned turtle.

The strange disappearance of Rev. George A. Jost, the Lutheran pastor at Rochester, Ind., is likely to result in the raising of a popular subscription to employ a detective to solve the mystery to find him, dead or alive. It is feared by his friends he was driven insane by gossip.

Frank Connor, of South Auburn, bought a new pipe and tobacco Saturday morning and entered the county jail to lay out a fine of $1 and costs or ten days. This was his choice between paying his dog tax or going to jail. He declared he would not pay it and with grim determination he undertook the task of carrying out his avowed intentions. The reason he gave for not paying it was because Marshal Brown shot and killed the canine while tied in his yard because of a compiaint laid in by a neighbor.

A SURE WAY OUT
QUICK RELIEF
It Is a Positive Fact That in Not One Out of a Thousand of Supposed Kidney Cases Does the Trouble Really Lie with the Kidneys.
Practically all the so-called Kidney trouble is in reality Bladder Trouble. Although sometimes intensely painful, and always annoying, it may be easily and quickly cured with GOLD MEDAL HAARLEM OIL CAPSULES.
There are other troubles arising in organs connected with the Bladder which are also quickly relieved by the use of GOLD MEDAL HAARLEM OIL CAPSULES. Full information is given in the printed matter enclosed in each box.
The Bladder is the receptacle for discharges from the Kidneys. Under normal conditions nature disposes of the contents of this reservoir (the Bladder) promptly and without pain. Once inflammation sets in, however, the contents may be retained for an unusual length of time, thus producing much pain and discomfort, or may be expelled with abnormal frequency and be the cause of much inconvenience and trouble. All of this may be relieved and finally cured by the use of GOLD MEDAL HAARLEM OIL CAPSULES.
GOLD MEDAL HAARLEM OIL is put up in two forms, in CAPSULES and BOTTLES. Capsules 25c. and 50c. per box. Bottles, 15c. and 35c. At all druggists. Be sure that you obtain the Gold Medal Tilly brand, otherwise you will get an imitation. Literature free.

ORDER TO MOVE THE LOAFERS GETS RESULTS

Drunks in Police Court Follow Clean-Up—City Court.

Three men were heard in the city court this morning as a result of the order given Saturday night to the patrolmen to clean up the drunks on the streets who insist on blockading the sidewalks and using bad language and one of them was fined, while two cases were continued until tomorrow morning. Frank Wilhelm was the man to get the fine. He drew $1 and costs.

Eight additional patrolmen were sent out in the central part of the city to get rid of the loafers and Patrolmen Keintz and Beyerle got Wilhelm. He "sassed" the officers when they gave him a chance.

Levi Burton and Elmer Eber, both employes of the rolling mills, were two other victims and their cases were taken under advisement. They did not make a fight in court and while they did not acknowledge their guilt, they said they had a few drinks, but added that they moved when the officers told them to. The case of Edward Adams was continued until Wednesday morning.

The Other Cases.

Emil Ponscar, an East Wayne street butcher, got into a mix-up with a Syrian fruit dealer on Harrison street Saturday afternoon and when Detective Lenz tried to get him to go home he told the officer he wouldn't do it and he used such vile language that after three attempts to quiet him the officer locked him up. He said he was not drunk and asked until tomorrow to get witnesses. His trouble drew a big crowd and created a lot of excitement.

Mike Haney and John McKarn, plain drunks, drew $1 and $5 respectively and their fines were suspended.

Richard Hart, charged with an assault upon his wife, was granted a continuance until tomorrow. He had a pair of black eyes that indicated he got the worst of the mix-up.

The case of James Decker, charged with stealing a bicycle from Benton Mills, went over until Wednesday.

THE MARKETS

GRAIN AND PROVISIONS.

Chicago Market.

Chicago, Aug. 30.—Enormous shipments of wheat from Russia during last week were the chief topics under discussion among traders in the wheat pit at the opening of the market today and the liberal movement prompted heavy selling here at the start, which caused initial declines of ¼@⅜c to 1½c. The total movement from Russia and Danubian ports last week were more than fifty per cent of the world's total movement, being estimated at nearly five million bushels. A leading elevator interest was a free seller during the early part of the day and the demand was scattered. As a result prices showed little inclination to rally early in the session. Opening quotations on September were 97⅜c and on December 93½c. Later September touched 98c and December, 93⅝c.

Prices continued to sag throughout the day, the market being bearishly affected by talk of a big prospective movement in the northwest. For September the low point of the session was reached at 97⅛c. December declined to 92⅞c. The market closed weak with September off 1@1⅛c at 97⅜@97½c. December was down ½c at 93⅜c.

The break in wheat inspired considerable selling of corn by commission houses early in the day, which resulted in moderate weakness. September opened unchanged to ⅛c lower at 65@65¼c and declined to 64⅜c.

The corn market was rather weak all day. The bottom for September was reached at 64½c. The close was easy with September off ½c at 64¾c.

Oats were weak in sympathy with wheat and corn. Trade was only moderate. September opened ⅛c to ¼c lower at 36⅜c to 36½c and for a time held within the opening range.

Provisions were inclined to be weak, owing to liberal receipts of live hogs at all western packing centers. Prices at the start were 7½c higher to 7½c lower.

The Close.

Prices at the close were as follows:

Wheat — September, 97⅜c; December, 93⅜c; May, 97¼c.

Corn — September, 64¾c; December, 55⅝c; May, 56⅞@57c.

Oats — September, 36⅝c; December, 36¾c; May, 39¼c.

Rye—Cash, 72c; December, 66c.

Pork—September, $22.25.

Lard — September, $12.20; October, $12.17½; November, $11.77½; January, 10.42½.

Ribs — September, $11.75; October, $11.65; January, $9.30.

Car Lot Receipts.

Wheat—Receipts today were 73 cars, with 15 of contract grade.

Corn—Receipts today were 235 cars, with 180 of contract grade.

Oats—Receipts today were 222 cars.

Total receipts of wheat at Chicago, Minneapolis and Duluth today were 699 cars, compared with 864 cars last week and 737 cars the corresponding day a year ago.

Toledo Grain Prices.

Toledo, O., Aug. 30.—Cash prices—Wheat—Cash, $1.07; September, $1.07; May, $1.05⅝.

Corn — September, 69¾c; December, 57¼c; May, 55⅝c.

New York Grain and Provisions.

New York, Aug. 30.—Flour—Receipts today were 18,021 bbls. Market quiet and lower to sell.

Wheat—Receipts today were 60,400 bu. With news all bearish over Sunday, particularly the crops, big northwest receipts and warmer weather in the northwest, wheat acted weak this morning, and on first sales dropped ⅝c per bushel. Later it rallied slightly on room covering. September, $1.06; December, $1.02 1-16@1.02 5-16; May, $1.03⅝@1.03¾.

Rye—Market dull; No. 2 western, 76c nominal, f. o. b. New York.

Corn—Receipts, 5,625 bu.

Beef—Market steady.

Pork—Market steady.

Lard—Market steady; middle west, $12.40@12.50.

STOCK AND BONDS.

The Day on Wall Street.

New York, Aug. 30.—The stock market opened with great excitement today, owing to the favorable news of Mr. Harriman's health. First sales of Union Pacific were twelve thousand shares at 200 and 200⅞, compared with 197⅜ on Saturday. Southern Pacific sold at 128¾ for two hundred shares, followed by running sales of five thousand shares at 129 to 129¼, compared with 126¾ on Saturday. Evidence of the demoralization of the shorts was shown throughout the list. Advances in the majority of the stocks ranged from 1 to 2 points and in some cases, especially where a Harriman interest was involved, more than that. Wabash preferred jumped 4 points, Reading 3, New York Central and Northern Pacific 2¾, American Smelting 2¾ and National Lead, Louisville & Nashville and the Union Pacific CV Bonds 2. Trading proceeded in a turmoil after the opening, but the advances were well maintained on secondary quotations.

The market began to feel the effects of the profit taking sales, which the big rise brought out soon after the opening and there wer reactions of a point in the Harriman stocks, Reading, New York Central, Northern Pacific and American Smelting and 2 in Wabash preferred. Trading then became quiet, but the market became active again before 11 o'clock and rose briskly. Union Pacific advanced to 201⅝ and the rest of the list ruled near the top. American Locomotive gained 2¾.

Union Pacific pushed its gain over Saturday to 4⅛, but the general price level did not exceed that at the opening. The trading was much quieter. Delaware & Hudson rose 2¾. Bonds were irregular.

Another upshoot to prices brought the market above the best figures of the morning. The strength shown by Union Pacific, which was up 5 points, contributed to a more cheerful feeling all around, and all classes of stocks responded to the increased demand for both accounts. Average gains were extended a moderate fraction over the previous high level for the day.

The sharpness of the day's rise invited profit taking and there was a reaction of a point in Union Pacific. Other stocks sagged about ½ point and speculation then became listless and apathetic.

The market closed strong. After United States Steel had touched 77⅞ Union Pacific fell back 1½ and there was a slight general setback. The market sank into dullness again and then hardened. Union Pacific recovered to about the best.

THE MONEY MARKET.

New York, Aug. 30.—Close: Prime mercantile paper, 4¼ to 4¾ per cent.

Sterling exchange, steady, with actual business in bankers' bills at 485.25 for sixty day bills, and at 486 for demand.

Bar silver, 51¾c; Mexican dollars, 44c.

Government bonds, steady; railroad bonds, irregular.

Money on call, firm, at 2¼@2½ per cent; ruling rate, 2¼ per cent; closing bid, 2¼ per cent.

Time loans, strong; sixty days, 2¾@3 per cent, and ninety days, 3¼@3½ per cent; six months, 4 per cent.

LOCAL MARKET EPITOME.

A decline in the quotations on spring chickens from 14@17c to 12@14c per pound alone featured the local market circles this morning. This change is really due to the fact that farmers are beginning to show an attitude to bring in more of the fowls, though the demands are remaining as good as they have been. In other lines there is nothing doing, the receipts today equalling blank.

A fairly good market is looked for tomorrow. The present figures look pretty good to hold.

After raising a cent or two within the last week, oats dropped back to 34c per bushel today because of the liberal movement.

ALTAR BOY'S FUNERAL.

Friends of Bennie Clemmer Attend Obsequies at Cathedral.

The funeral of Joseph Benjamin Clemmer, who was drowned Friday afternoon in the St. Joe river, was held this morning from the Cathedral. The obsequies were very impressive and attended by a large congregation. As altar boy the little lad was well known and his bereaved relatives have the sympathy of a wide circle of friends. Requiem high mass was celebrated by Rev. George Moorman, and schoolmates of the deceased sang in the choir during the services. The pall bearers were Robert Dinnen, Louis Centlivre, Myron Parrott, Edward Morton, Elmer Bobay and Leander Novick. After mass Father Moorman paid a touching and loving tribute to the memory of the little boy who, three months ago this morning, received his first communion at the Cathedral. He was regarded as one of the most faithful and devoted acolytes of the parish and his was a familiar figure in the sanctuary at any of the services.

TENNESSEE BANK HAS RUN.

Other Union City Banks Go Promptly to Its Relief.

Union City, Tenn., Aug. 30.—Because of the failure today of the Hardy Grain company of this city a run was started on the Union City Bank and Trust company when that institution opened its doors. The First and Third National banks of this city went to the rescue of the trust company, along with private citizens, and all depositors were paid on presenting their claims. George Hardy, president of the grain company, killed himself a few days ago.

HAD DROPPED HER PURSE

Mrs. George Might Injured in Alighting From a Car.

Mrs. George Might, of Fostoria, O., who is the guest of friends at 1133 Edgewater avenue, dropped her purse from a Robison park trailer Sunday evening at Clinton and Superior streets, and in attempting to recover it stepped backwards from the car and was thrown heavily to the pavement. She alighted upon her head, and in the opinion of physicians who attended her, only the manner in which she chanced to be wearing her hair prevented a fracture of the skull. A hair pin was forced into the scalp, causing a laceration.

Mrs. Elizabeth Isaby, 1012 Wells street, fell or was thrown as she alighted from a Robison park car at Calhoun and Superior streets Sunday evening, receiving a cut upon the head and a number of painful bruises.

This week we will sell about sixty odd knee pant suits at 98c. Read our ad on page 5.

The Girl Who Does the Kitchen Work

should have the best of implements and plenty of them.

Ten chances to one if you would spend from two to five dollars for a lot of little conveniences you would very materially facilitate the kitchen work. It would pay you better than it would pay the girl and it would be worth a lot to her. We might call your attention to such items as Wood Salad Sets, Wood Bread Plates and Baking Boards, Wood Chopping Bowls and French Wood Spoons; also Butter Molds and Paddles, or perhaps she needs a new bucket in fiber and enamel or in cedar with brass and plain hoops.

We invite you to call and look over this stock.
